Welcome by Kristian Wang.

Mr. Prusse showed us a sample letter to the local businesses. He will add a paragraph about the challenges we face with growth and the transitory nature of our neighborhood. The main purpose of the letter is to thank them for their support. Mr. Prusse will revise the letter and send us a copy.

Math Night: It has been decided to call it Family Game Night instead of math night. Mr. Prusse will add a picture of a family playing games to the flier. We will ask for a count on the flier so we know how many to prepare for.

Community council will run a store with math related prizes. Once the children complete 5 activities they get to come choose a prize.

Community council members will provide estimation jars. We need more sheets at each jar. Wendy Neff will run copies, 5-6 per jar. A few council members will do jars for the younger children only so they have a chance to win.

We will need a role by each door for the kids to sign in. Mr. Prusse gives a prize to the grade with the most attendance.

We talked about getting a sponsor to either donate or provide refreshments at a minimal cost, with the proceeds going to the school. Another idea was to have the children do an additional 5 activities and get a ticket for a refreshment. Wendy Neff will call Lofthouse to see about a donation of 500 cookies.

On the school website there is a list of resources that parents can help students with math by grade level. Mr. Prusse will print copies of these and have them out that night and will also put a digital copy on Facebook.

The next meeting will be January 21st at 5:00 p.m. Meeting adjourned at 5:45 p.m.
