Creating Effective Learning Environments For all Students

Individual Supports Team Work A few students need intensive assessments, team planning and consistent intervention

Acknowledge

Some students need to learn new skills with more adult direction

Many students need assistance to consistently use appropriate learning and interaction skills

The majority of students need to learn what behaviors are expected across settings

Adult Attention Prompt Practice Encourage Acknowledge

Teach Review

Program-Wide Plan

Encourage

All students need to feel like they belong, a conscientious team of adults planning, observing, reflecting, individualizing, adapting, modeling leading, and need to be stretched just beyond
