Discussion of Teacher Websites – Rob Hunter – expressed concern that websites do not have a lot of up-to-date information.

What is the minimum requirement for a teacher website?

Deanne discussed these concerns with department chairs. Would be nice to have general hours. Basic calendar with major assignments or projects. Link to Canvas. Link to Calendar. Disclosure. Difficulty with managing two online portals ie. Canvas and teacher webpages.

Determined that the school will focus in the item listed above in addition to correcting out-of-date information. Further improvements may be expected in the future.

Mentioning of Community Council training times and opportunities

John Tobin – proposal to create a subcommittee for data analysis that would then share that information with community council in light of decision making.

Asked for people to volunteer for committee – Stacey Weight, Rob Hunter, Machel Filion

Determined that Rob would lead out in organized meeting times with committee.

No vote taken

Land trust appropriations and expenditures – Nothing changed since last time. Money is being used for substitutes to facilitate teacher collaboration.

Report on Saturday School – Deanne – will report on actual data for Saturday School next meeting. Explanation of how Saturday school works.

Richard Stout – are we doing anything to help them understand what success feels like in regard to Saturday School?

Can we improve the quality of incentives or helping students recognize the feeling of success?

Students should be given the opportunity to reflect on their success and on their own learning and accomplishment.

Bus will not be used to send students home after Saturday School since only a few took advantage of it.

Suggested that we look at who is NOT coming to Saturday School and trying to discover why.

Determined that we are probably getting down to a core group of students with obstacles to academic success that are difficult for the school to address. Need to dig deeper. Students are provided more avenues than ever before to receive and/or recover credit. How can we continue to help?

PTO funding, Amazon and Smiths accounts have fallen dramatically. How do we increase that number?

Counseling Update-Claire – Follow up on 9th Grade registration.

Motion to adjourn – Richard and 2nd by Stacey.
