Approximately 75 committed staff members collaborate to serve 700 students in kindergarten through fifth grade. We are enthusiastic learners, constantly working to improve student learning. Staff learn through staff meetings and professional development on Wednesday afternoons, as well as through a voluntary Instructional Team, meeting regularly to build knowledge of content and teaching practices.  

Collaboration extends to our students, both in and out of the classroom. One example is our families program, which increases student connectedness and provides opportunities for student leadership. Each “family” is comprised of students from each grade level. Monthly, the families meet to do activities that support character development.  

Excellence in education includes developing responsible, resilient, empathetic learners. Staff support student success by teaching school wide behavioral expectations and Second Steps social-emotional learning curriculum. Staff work to create a quality learning environment, celebrate growth and achievements, help students make good choices and learn from their mistakes.  

Bruce Denton, Principal

School Improvement Plan
Student achievement in literacy and math continued to be our priority as we worked to achieve goals aligned with district initiatives and best practices. We also committed to ensuring student connectedness to school and engagement in learning as we continued implementation of PBIS, Positive Behavior Interventions and Supports.

Implementing reading and writing workshop and new curriculum improved staff knowledge and skills over the last several years. Our staff collaborated to clarify learning targets in literacy and strengthened our knowledge of using learning progressions to understand individual students’ strengths and next steps. In order to meet those varying needs, we learned more about providing interventions one on one and through small group instruction.

Canyon Creek staff continued our discussions about mathematics. We spent time adapting tasks to challenge students who were ready for more of a challenge and support learners who were striving to understand concepts.
School Improvement Plan cont.

As a Professional Learning Community, Canyon Creek teachers collaborated using formal and informal assessment data to make instructional decisions for individuals and groups. Teams provided opportunities for staff to strengthen their own teaching skills, while also improving on their ability to support colleagues.

We continued our implementation of PBIS school-wide. We refined and strengthened our plans for teaching and reinforcing common expectations across the school. Primary teachers also began teaching Second Steps social-emotional learning curriculum. We know that we are helping shape lives and that this social-emotional learning is critical for the success of the whole child.

Facilities
The Canyon Creek campus includes 34 classrooms, two music rooms, a gym, and a space for physical and occupational therapy. A 2009 renovation provided a new kitchen, cafeteria and four classrooms. Existing classrooms were also updated with new carpets, cabinets and floor tile; and the library was upgraded to better support student learning. A great deal of work was done in the summer of 2011 to modernize our roof, walkways and heating and ventilation.
