Bothell is a school rich in tradition and history that is very connected to the community.

When students come to Bothell High School, they enter an atmosphere of excellent academic programs, positive school climate and dedicated, caring staff. Our rigorous academic program challenges students to reach their potential — stretching them to look beyond what they may think they are capable of achieving; it fosters intellectual curiosity, and it generates successful learning.

Bothell High School is recognized in the region and in the state for its outstanding academic, athletic, theater, music, fine arts and career programs. Approximately 80% of our students pursue post-secondary education.

Our school community is enhanced by a close connection to our parents and their active support of Bothell High School in a variety of ways. We continue to encourage and invite our parents and community members to participate in school activities.

Bob Stewart, Principal

Mission Statement: *Bothell High School is a safe and inclusive community that challenges each student to think critically, apply knowledge, participate positively, and develop skills to contribute locally and globally.*

School Improvement Plan

Our 2016-17 School Improvement plan focused on connecting at risk students (those with attendance issues, not on track to graduate, ELL, or Special Education) and connect them to an adult in the building who would mentor and guide them in meeting graduation requirements. Our staff each connected with at least two students in their classes who needed this extra attention. Data from 2015-2016 compared to 2016-2017 showed that fewer students were not on track to graduate than the previous year due to this focus.

In addition to this important work, staff also spent time throughout the year receiving training and learning opportunities to prepare for the transition to becoming a four-year high school, teaching on the block, and the implementation of advisory in the 2017-2018 school year.

School Improvement Plan cont.

Staff, parents, and students also participated in a district wide effort to draft, revise, and complete a Strategic Planning Document that became the driver for how the 2017-2018 school year school improvement plans would be constructed. This will align our district and building goals and guide our work in improving student outcomes in the years ahead.

Facilities

Bothell High School was completely rebuilt over an eight-year period between 2000 and 2008. The 1950's facility was replaced with a state of the art 248,000 square foot facility that enhances student learning.

One of the unique features of the campus is a 600-seat theater that was enhanced by the participation of the Northshore Performing Arts Foundation. The Performing Arts Center is used regularly by school and community groups.
