

COMPUTING RESOURCES

PURPOSE: To establish requirements for the appropriate and acceptable use of computing resources.

It is the intent of the Board that District computer usage complies with federal and state laws and regulations, Internet policies and procedures, and other related Board policies. The use of the District system, whether by students or employees must be in support of education and consistent with the educational objectives of the District.

District computing resources are intended for administration, education, training, research, and planning purposes. The computing resources shall not be used for unauthorized purposes such as, but not limited to, transmission of commercial or personal advertisements, solicitations, promotions, destructive programs, and/or distribution of political or religious material or material considered offensive.

To protect the integrity of the systems, workstations, networks, and instructional facilities, the District reserves the right to monitor and restrict access to District computing resources and the Internet.

The District makes no warranty of any kind, whether expressed or implied, for the services it provides through District computing resources.

The use of District computing resources is a privilege, not a right, afforded to students and employees of the District. Violation of District policies and procedures may result in cancellation of computer-use privileges and/or other disciplinary action.
