

PRESCHOOL MISSION

Our Preschool Mission is to provide an Early Education Program that fosters each child's social, emotional, physical and cognitive growth through developmentally appropriate experiences to become independent, confident and successful learners. We validate the cultural and linguistic heritage of each child.

PARENT COMMITMENT

Parents are an important part of preschool. You are your child's first teacher. During the first 4 years you have taught your child many things, such as how to use a fork or spoon, drink from a cup, play games, sing, and many other things. In preschool you will continue your role as a teacher. Parents are always welcome to visit the preschool at any time. Parents are strongly encouraged to work in the classroom for a minimum of three hours a month and participate in typical school activities or any other special activities.

HOURS OF OPERATION

The preschool program follows the elementary calendar closely. Our program is Monday through Friday 3 hours a day. We offer a morning session and an afternoon session hours vary from site to site. We are located at 3 different sites. All of the State Preschool sites are licensed by Community Care Licensing, Department of Social Services.

STAFF

Teachers are fully qualified meeting all state requirements. Staff attends in-service trainings to ensure continuous professional growth. Classes maintain a ratio of 1 adult to 8 children.

Gilroy Unified School District Preschool Programs admit students based on eligibility standards. It does not discriminate based on sex, race, religion, ethnicity or physical handicap. We do not practice religious instruction or worship.
