

School Linked Services

Vision:

Children are thriving at home, in school, and in their communities through the care and nurturance of families who love them; and through responsive, effective, and coordinated support from schools, and community resources that surround them.

We provide support in connecting students and families to services such as, but not limited to:

- Behavioral Health Services
- Medical, Dental, Vision
- Food Assistance
- Workshops for Students and Parents
- After School Programs
- And more...

If you would like support in getting connected to services, please contact your School Linked Services Coordinators.
