

PUBLIC NOTICE

To: Parents of Students in Shawnee Mission School District No. 512, Employees,
and Other Interested Persons

From: Bob Robinson, Executive Director of Facilities and Support Services

Subject: Annual AHERA Asbestos Notice

Date: June 4, 2018

Shawnee Mission School District continues actions to remove and repair asbestos materials from its buildings.

The Environmental Protection Agency issued asbestos regulations in response to the Asbestos Hazard Emergency Response Act (AHERA) of 1986. AHERA regulations require an asbestos management plan, semiannual surveillance of asbestos materials, triennial reinspections, use of accredited persons to conduct inspections and carry out response actions, asbestos awareness training for Operations and Maintenance personnel, and recordkeeping.

The asbestos management plan is available at the district's Operations and Maintenance facility. Management plans for individual facilities are available at each school building.
