Assessment is the term used to measure the students’ demonstrations of learning:

There will be summative assessment projects and tests to show what they have learned. These will be assessed using the IB MYP criteria:

Oral communication

Criterion A Speaking and listening	message and interaction	Maximum 8
Criterion B Speaking	language	Maximum 8

Writing

Criterion C Writing	message and organization	Maximum 8
Criterion D Writing	language	Maximum 8

Reading comprehension

Criterion E Reading	comprehension	Maximum 16
---------------------	---------------	------------

For each assessment criterion, a number of band descriptors are defined. These describe a range of achievement levels with the lowest represented as 0.

The descriptors concentrate on positive achievement, although failure to achieve may be included in the description for the lower levels. It is intended that oral skills, writing skills, and reading comprehension and interpretive skills are equally weighted, hence the need to double the final level for criterion E when determining final grades at each certification level.

During the year each of these criteria will be measured at least twice, not necessarily at the same time. Because this is criterion based assessment you are not measured against others – it is not normative. All work will be compiled in a **portfolio**.
