

School Meals

This policy supports the mission of the School District: Providing the environment that cultivates maximum student potential. Nutrition influences a child's development, health, well being and potential for learning. To afford students the opportunity to fully participate in the educational process, students must attend school with minds and bodies ready to take advantage of their learning environment. This district-wide nutrition policy encourages all members of the school community to create an environment that supports lifelong healthy eating habits. Decisions made in all school programming need to reflect and encourage positive nutrition messages and healthy food choices.

**Hot Lunch/Breakfast Program:**

- The full meal program will follow the U.S. Government's Nutrition Standards and offer a variety of fruits and vegetables. At least half of the grains served shall be whole grain.
- The meals served will be appealing and attractive to children
- The Hot Lunch/Breakfast provider will be expected to make every effort to follow the District Nutrition Standards when determining the items in a la carte sales.

  - A la carte items that do not meet the District Nutrition Standards may be acceptable when offered on an intermittent basis.
