

California Assessment of Student Performance and Progress Annual Report 2015-2016

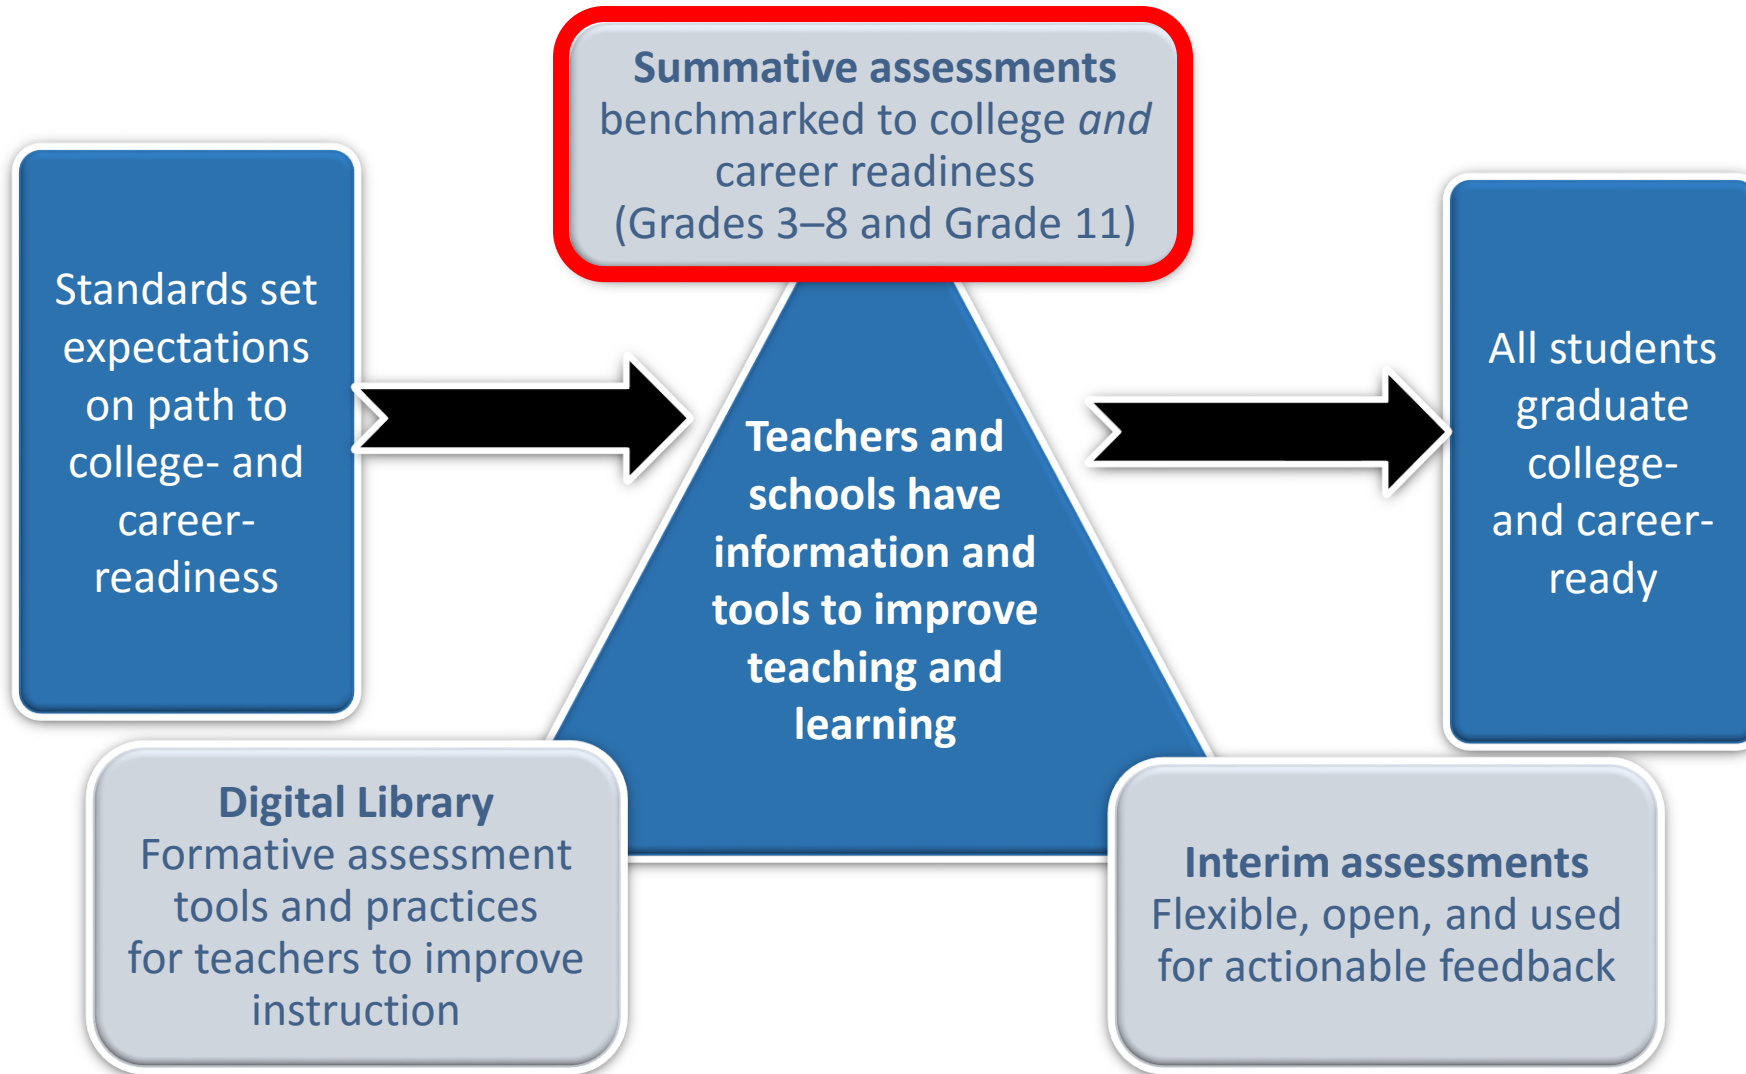

September 20, 2016

Smarter Balanced Assessments

- Aligned with California's standards for English language arts/literacy (ELA) and mathematics.
- Reflect the critical thinking and problem solving skills that students will need to be ready for college and the 21st century job market.
- Taken on a computer and are adaptive, questions become more or less difficult based on how the student performs.
- Provide many more supports for students who need them, including students learning English and students with disabilities.
- Require students to :
 - Explain how they solve problems
 - Think critically
 - Write analytically

A Balanced Assessment System

Available Summative Assessment Scores

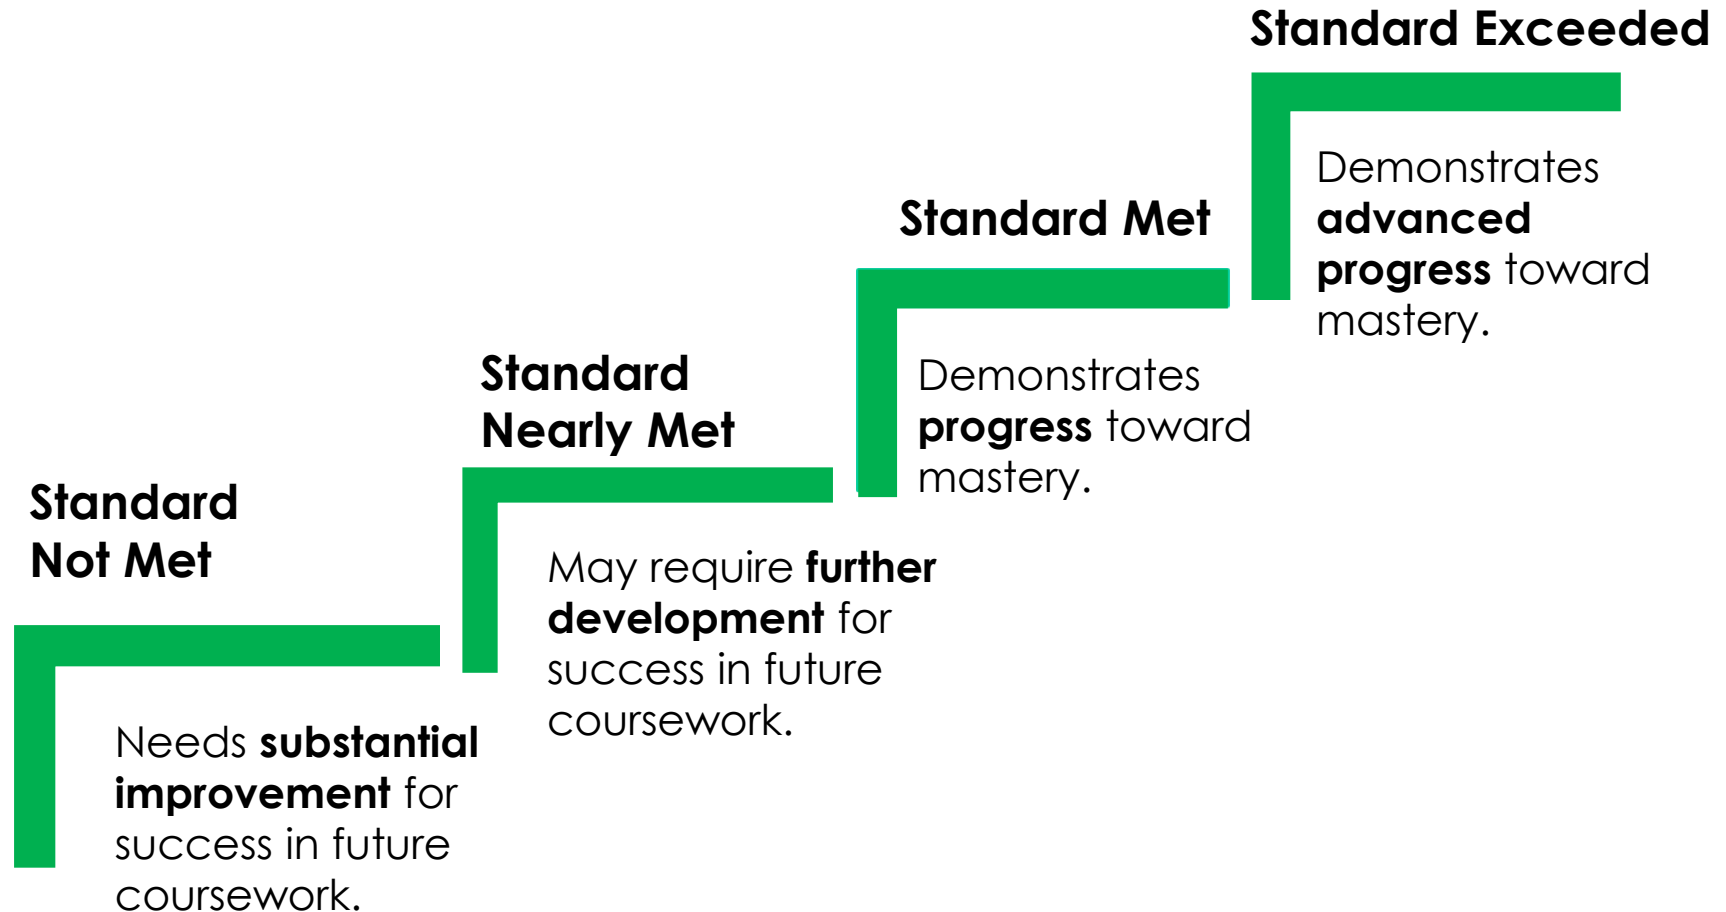

- Scale scores
- Achievement levels
 - not met, nearly met, met, exceeded
- Claim levels
 - below, near, above
- Target scores
 - worse, similar, better
 - insufficient information

Average Scale Score	Percentage in Each Achievement Level
2457 ±14	<div><div>42</div><div>25</div><div>25</div><div>9</div></div>

Claims	Percent at Each Claim Achievement Category
ELA/Literacy	
Reading	<div><div>47</div><div>32</div><div>21</div></div>
Writing	<div><div>49</div><div>38</div><div>13</div></div>
Listening	<div><div>28</div><div>62</div><div>9</div></div>
Research/Inquiry	<div><div>30</div><div>58</div><div>11</div></div>

Icon	Target Level
+	Better than performance on the test as a whole
■	Similar to performance on the test as a whole
■	Worse than performance on the test as a whole
◆	Insufficient Information

Achievement Level Descriptors

Claim Scores: Example of a Claim

Claims are broad, evidence-based statements about what students know and can do as demonstrated by their performance on the assessments. For example:

English Language Arts/Literacy Claim #1

Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts.

Use of Claim Scores

- Reported at an individual and aggregate level
- Reported for all claims in ELA and mathematics

AREA	Below Standard	Near Standard	Above Standard
Reading <i>How well does your child understand stories and information that he or she reads?</i>			✓
Writing <i>How well does your child communicate in writing?</i>		✓	
Listening <i>How well does your child understand spoken information?</i>		✓	
Research/Inquiry <i>How well can your child find and present information about a topic?</i>	✓		

Assessment Targets

- Assessment targets connect the content standards to evidence that will be collected from the assessment.
- Targets map the state standards onto assessment evidence that is required to support the content categories and claims.
- Targets are used to guide the development of items and tasks that will measure the state standards.

Target Scores

- Reported at an aggregate level **relative** to group performance
- Reported for all claims in ELA, but only for Claim 1 in mathematics
- Only targets with 10 or more items in the item pool for a grade are included in target reports

Icon	Target Level	Description
	Better than performance on the test as a whole	This target is a relative strength. The group of students performed better on items from this target than they did on the rest of the test as a whole.
	Similar to performance on the test as a whole	This target is neither a relative strength nor a relative weakness. The group of students performed about as well on items from this target as they did on the rest of the test as a whole.
	Worse than performance on the test as a whole	This target is a relative weakness. The group of students did not perform as well on items from this target as they did on the rest of the test as a whole.
	Insufficient Information	Not enough information is available to determine whether this target is a relative strength or weakness.

<http://www.caaspp.org/rsc/pdfs/CAASPP.target-report-FAQs.2016.pdf>

Example of an Assessment Target (Grade 7 ELA Claim 1 Example)

Target 1

Key Details:

Identify explicit textual evidence to support inferences made or conclusions drawn.

Use of Summative Report

Results from the Smarter Balanced Summative Assessments provide **one** piece of information about a student's academic performance that can:

- Help facilitate conversations between parents/guardians and teachers about student performance.
- Serve as a tool to help parents/guardians and teachers work together to improve student learning.
- Help schools and school districts identify strengths and areas that need improvement in their educational programs.
- Provide the public and policymakers with information about student achievement.

Statewide Summative Assessment Data

- Provide a general raise many questions, allowing reflection on context and practice
- Provide an entry point into a collaborative, honest conversation

Patterns and Trends

- Achievement levels mirror state and county
- Comparison of ELA scores show growth as grade level increases
- Disparities between student groups persist

Points to Consider

- Implementation of new curriculum
- Transition to Next Generation Science Standards
- Impact of educational technology
- Support of new staff members

Next Steps

- Identify programmatic strengths and areas for improvement
- Identify disparities between student groups, grade levels, across sites
- Continue to build staff capacity to use **formative** and summative assessment data strategically
- Align CAASPP data with other metrics (qualitative and quantitative)
- Re-visit, re-evaluate LCAP goals, activities, services

New 2016 Site Features

What's new to our site in 2016? We've added a few additional features to help make your search for results a little easier. Our new features allow you to:

- Compare test results across counties, districts, schools, or the state on a single screen.
- View results over time in addition to a single year at a time.

“ Welcome to the California Assessment of Student Performance and Progress (CAASPP), our state's assessment system for students in grades 3–8 and grade 11.

The CAASPP results give us a key measure of how well students are mastering California's challenging academic standards in English language arts/literacy and mathematics. The skills called for by these standards—the ability to write clearly, think critically and solve problems—are critical to success in college and 21st century careers.

No single assessment can provide teachers with all the feedback they need to tailor instruction to meet the needs of their students. These results should be considered along with other measures of learning and in consultation with a student's teachers. Because CAASPP tests are given statewide, they provide an opportunity to measure the skills of all students against the same academic standards in the same way, and the results provide information schools can use to improve teaching and learning. Given online, the tests are computer-adaptive, allowing a more precise measurement of each student's skills.

Smarter Balanced Assessments

Taken by students in grades 3–8 and grade 11.
