I went to college because: *I went to college because it was expected of me. Since I was 5 years old, I was taught to save for college.*

My favorite experience: *EVERYTHING!!!! I loved college (undergraduate). I went away to school at 18, lived in the dorms and had a blast!*

The hardest thing about college: *The hardest part about college was paying for it! I paid for college (both undergrad and grad school) myself.*

Advice: *Care about your classes and grades; involve yourself in outside activities such as sports, volunteer work, a job; start saving money now -- every bit helps!*
