3. **Principal's Report on school items**
 - a) Data and goal update-Our dibels score had a 4% growth overall. We are at the district average. Individual classes fluctuated. Those teachers are working on improving scores. We talked about having each grade level report the same way so that it is easier to understand the charts. Either have them all report a percentage or the number of students. We also talked about having them all report both ways. We also talked about having more the graphs show more progress (i.e. show average of students who have hit the goal, average of students who are close to hitting goal)
4. **Current ideas, questions, needs, and/or concerns from Council and/or Community**
 - a) Potential Goals for 2018-2019 school year-We looked over a few options for potential goals for next year. A PDF was sent to the council members to look over more in depth and make a decision for goals so they can vote on them at the next meeting. It was brought up that maybe we keep the same goals for next year with maybe a little tweaking.

6. **Trust Lands Items, Budget, or Updates**
