

SUPERVISION OF CONSTRUCTION CONTRACTS

The Superintendent or designee is responsible for monitoring the contracts with architects and all contractors. The Superintendent or designee shall oversee all projects to ensure quality control and compliance with all applicable laws and regulations.

Upon completion of a particular construction project, the design consultant will conduct an inspection to ensure that the structure was built as designed. The Superintendent or designee shall check the new facility for completeness and to ensure all contractual obligations and agreements concerning the project have been fulfilled.

Immediately following the completion of the project, the Superintendent or designee will gather all documents connected with the building project for the purpose of preserving them as part of the New Hanover County School systems' permanent record.
