

## **FACILITY CONSTRUCTION**

Facility construction will be undertaken in accordance with the long-range plan adopted by the New Hanover County Board of Education and the facility design approved by the Board. In the event of insufficient funding for a project, the Board will defer implementing parts of the long-range plan.

Buildings should be constructed with durable materials that, when possible, permit space to be adapted to various purposes and to be adjusted to changes in technology or the educational program.

Any repairs or renovations of school facilities should be undertaken in such a way as to minimize disruption of instructional time and the educational environment.

All plans for alterations, modifications and improvements to New Hanover County buildings or grounds shall be submitted to the Superintendent or designee for review and approval prior to the commencement of work.
