

NETWORK AND INTERNET ACCESS FOR STAFF

New Hanover County Schools area network (WAN) connects thousands of users to electronic information, communication tools, and the World Wide Web. This WAN utilizes a complex association of both hardware and software throughout New Hanover County Schools. The integrity and stability of this network and the services it provides rely on the proper conduct of its users and strict adherence to acceptable use guidelines established in this Policy.

Technology plays a vital role in assuring equitable access to a variety of resources. New Hanover County Schools provides access to network resources to help conduct the instructional, administrative, and operational business of the school district.

A part of network resources is the Internet. As a learning resource, the Internet is similar to books, magazines, audio recordings, videos, CD-ROMS, and other information media that may be used to meet educational needs. Students and educators may also use the Internet to participate in distance learning activities, ask questions and consult with experts, and communicate with other students, educators and individuals.

The Internet also provides access to material that is of no educational value. However, the value of the information found and interaction available outweighs the possibility of locating inappropriate material.

Internet access is coordinated through a complex association of government agencies, as well as regional and state networks. The smooth operation of the network relies upon the proper conduct of all users who adhere to strict guidelines. The guidelines, which call for efficient, ethical and legal utilization of the network resources, are provided here so that users are aware of the responsibilities they are about to assume. In addition, guidelines from other service providers must also be followed. **Violations of any of these guidelines may result in access being suspended and/or future access being denied.**

Electronic mail (e-mail) is provided to conduct the business of the school district. Occasional and reasonable personal use is permitted, providing that this does not interfere with the performance of an individual's job assignment or the performance of the electronic mailsystem.

New Hanover County Schools utilizes the following security services as required by state and/or federal agencies: identification, authentication, authoring and access control, accountability, administration, and auditing.
