MineCraft Eye Script for Video Tour   NAME:_____

_____

Eye parts you must include: Sclera, Cornea, Aqueous Humor, Iris, Pupil, Lens, Vitreous Humor, Retina, Blind Spot, Optic Nerve, Tapetum (if cow eye) or Other (if human eye)

_____

1. Imagine your tour. What is the best way to show off your hard work? Decide what path you will take through your eye – where you will start and end, and how you will move around to 'visit' all eleven (or more) parts of your eye. You might consider tracing the path of light as it moves through the eye. The goal is to explain, through your tour, how vision works! You must show your whole outside of the eye as well as all interior parts!

The order of my tour will be:

2. Write an introduction. Your introduction should include:
   a. Your name
   b. Welcoming visitors to "Vision Village" (MZ), "Optical Outpost" (AG), or "Sight City" (BJ)
   c. Welcoming visitors to your very own model of the eye
   d. anything else you want to say about the process or the outside of your eye before you go inside

Introduction:

3. Write the script of what you plan to say as you tour through the eye. Change the order of the list of eye parts below (use cut/paste) so that your list is IN THE ORDER you plan to give your tour. Make sure, FOR EACH EYE PART, you tell us about:
   a. the name of the eye part,
   b. what is its function in the eye (what it does or why it exists),
   c. what block it is made of, and
   d. why you chose that type of block.

Sclera

Cornea

Aqueous Humor

Iris

Pupil

Lens

Vitreous Humor

Retina

Blind Spot

Optic Nerve

Tapetum (if cow eye) OR

Other (if human eye)

4. (Optional): Show us any extra things or special features you added, and how they work or what they do.

Special features:

5. Conclusion: Write a conclusion that provides an appropriate ending and thanks your viewers.

Conclusion:

6. Proofread! Get a peer or parent to proofread too! Fix typos and check COPS!

Name of someone who helped you peer-edit: _____

7. Practice walking/flying through your eye, while reading your script, *at least three times* before you will be given permission to start recording.

How many times I practiced: _____

8. Only 1-3 students will be allowed to be doing their recording at a time. When someone is recording, it's very important that the rest of us be *silent* so that we don't show up as background noise in their video. Put blue tape on your mouth if you have to!

Remember to edit/revise/proofread!
This document is an important part of your grade for this project!
