

# SAFE AND ORDERLY DRIVING & PARKING

## Where to drive, where to park

Below is a map to explain the safe places to pick up, drop off, and park at West Clinton. Please follow these guides to help keep students safe and make traffic flow smoothly here at school. Thank you.

- ★ Safe drop-off and pick-up zones
- ⊘ Do NOT use for parking, pick-up, or drop-off
- ← Drop-off/pick-up waiting zone (please don't idle)
- ← Pull through zone—no parking or waiting
- Staff** Staff parking only—use the front parking lot or the northeast parking lot

## Rationale

The east lot marked staff is not a safe area for students. To reach the lot, they either have to cross the bus loop or one of two drive way areas.

Also, the sightlines in the parking lot are limited, making it difficult to see if a student is cutting between cars to cross through the lot.

Since staff are not leaving at the same time as students, we have designated that lot as staff parking. Please use the northeast lot or the front lot.

Students whose parents are not here see others crossing and then they try to do the same. Please model the safest walking patterns for all students.

*\* The 20 MPH school zone starts before one crosswalk and goes past the second crosswalk. Please don't speed up between the two crosswalks.*
