

Lab Work at
miCare
 HEALTH CENTER

What labs can I receive at the miCare Health Center?

Your employer sponsored miCare Health Center is proud to offer many common lab tests that you normally would be able to receive at any community health center.* These lab tests include blood work, pap smears, prostate screening, lipid panel, and comprehensive metabolic panel. Chances are, if you can get the lab from your family physician, you can get it at miCare!

What would these labs normally cost elsewhere?

Lab costs vary greatly dependent on the type of lab one is receiving. Most of the time lab work ranges from \$10 to \$200. miCare eliminates the middle man! Your employer receives a better rate on the cost of the lab tests and they are free to each member.

When can labs be drawn?

Visit ebms.com to schedule a time for labs to be drawn.

Money Saving Tip!

If your doctor orders lab work, just ask for a lab order and lab work done at the miCare Health Center ABSOLUTELY FREE! miCare will fax the results to your doctor.

Lab Test	Community Cost to Member	miCare cost to Member
CBC	\$22.85	\$0.00
CMP	\$99.89	\$0.00
