

### **AACS Club, Team, Group, and Campus-specific Fundraising Guidelines**

1. All activities must be approved by the campus-specific principal AND the advancement office
2. Funds raised must directly benefit AACCS as a whole, a specific AACCS team or group, or have tangible and quantifiable benefit to AACCS as a school (for instance: be part of a local, annual partnership established by leadership or have academic overlap that is substantial – i.e. senior practicum service projects)
3. Individual fundraisers (representing one person) are not allowed
4. All approvals and forms must be filled out prior to scheduling
5. AACCS reserves the right to deny requests of any group or team at any time for any reason
6. Donor fatigue is real – AACCS may limit approved requests or may recommend another time or structure for events
7. Use of AACCS campus property or space must have facilities approval AND must be returned to original condition after completion of the event or gathering (a teacher or staff member must be the “sponsoring” employee for facility use)
8. AACCS encourages service activities and involvement – we want to be able to approve and support as many kingdom-focused fundraising activities as possible. If you have an idea – ASK!

Please be mindful that AACCS is a stewardship focused community and we believe that giving is to be cheerful and generous. All fundraising activities and communications should be free from guilt and/or transactional manipulation.
