CONTEST winner Lisa Kill, 2009***

**WHERE:** Our department is located by the Main Office near the rotunda entrance. room B145 (foundations), room B144 (ceramics), and room B139 (photography).

**WHY:** To better understand the universal language of art, the student learns how to work with certain media skills (pencil, paint, clay, darkroom supplies). As the student takes more art classes, he/she begins to explore their own personal style and essentially develops a well rounded portfolio.

**COST:** There are no fees for foundation level art courses. However, for additional projects or upper level courses, fees may be assessed to accommodate the artistic creativity of each advanced student's portfolio projects.

**ART IS FUN !**
