

Dear Parents,

We appreciate all who help us keep our students safe as they travel to and from school each day. We take in and release 900 students on a daily basis. Safety during this process is very important to us. As the weather changes, there will be more students transported by vehicles. Please review the following procedures and map (see below) to better understand our safety system.

These are the areas where you can drop off and pick up students in a vehicle. They are **ACTIVE** areas where there is **no parking, waiting & watching or getting out of your vehicle.** Cars need to be pulling forward continually and as far as possible to keep the flow of traffic moving. Remember that parents behind you are waiting to be able to move to the safe drop off/loading area. Please be considerate.

If you would like to get out of your vehicle and walk with your child, go to meet your child, or watch them — Please park in the PARENT PARKING LOT.

These are no parking, drop off or loading areas. Safety is greatly increased as we keep these areas free of vehicles. The Bus Lane can be used **AFTER** the busses have departed (both AM and PM) Please do not pull into the bus lane prior to them arriving.

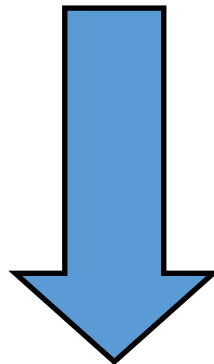

Please remember when using the back of the school for drop off/pick up that there should be **NO U-TURNS** or **PULLING in to DRIVEWAYS** of our Endeavour neighbors. We are generally able to load and get all cars in the safe zone within 7-8 minutes of the bell.

Always remember to have your student exit and load your vehicle on the CURB side.

Our bus drivers have consistently thanked us for our safety procedures. They see a real difference from other schools that they service. Our neighbors have also expressed thanks. Endeavour has wonderful parents and caring staff who work together to make safety a top priority. We thank you for your support!
