----------------------------------	---------------------	-------------------------	-------------

Likelihood

1.	Rare	Cannot believe that an event of this type will occur in the foreseeable future (1 to 3 years)
2.	Unlikely	Risk remains a possibility or yearly occurrence. No trend.
3.	Possible	Risk is monthly occurrence. Identified trend.
4.	Very likely	Risk is weekly or likely to occur but not persistent threat.
5.	Almost certain	Issues that are a current or persistent threat. Risk is daily or frequently / expected to occur when task is performed.

Severity

1.	Insignificant	Very minor injury (minor cuts/grazes). Very limited property damage/loss
2.	Minor	More serious injury <7 days off work/incapacity (sprains, serious cuts, bruising, injury needing medical attention. Slight property damage/loss.
3.	Moderate	RIDDOR reportable (to HSE) injury/sickness (except fatality). More than 7 days off work. Significant property damage/loss
4.	Major	RIDDOR reportable (to HSE) injury/sickness affecting more than one person (excluding fatality). Major property damage/loss.
5.	Catastrophic	Single or multiple staff fatality. Catastrophic property damage/loss

Likelihood of occurrence		Severity				
		Insignificant	Minor	Moderate	Major	Catastrophic
1.	Rare	1	2	3	4	5
2.	Unlikely	2	4	6	8	10
3.	Possible	3	6	9	12	15
4.	Very likely	4	8	12	16	20
5.	Almost certain	5	10	15	20	25

Area or activity assessed	UKSA, Isle of Wight	Assessment date:	5 June 2017
----------------------------------	---------------------	-------------------------	-------------

Risk rating	Risk acceptability	Management actions required
20 – 25	Unacceptable (significant)	Work should not be started or continued until the risk has been reduced.
12 - 16	Substantial (high)	Work should not be started or continued until the risk has been reduced to a level that is as low as reasonably practicable.
8 - 10	Manageable (medium)	Efforts should be made to reduce the risk rating to as low as reasonably practicable. However, the costs of prevention should be carefully measured and justified.
3 – 6	Manageable (low)	Monitoring is required to ensure that current control measures are maintained. Consideration may be given to any further control measures that are cost effective or no additional cost burden. Record local actions, inform relevant manager.
1 – 2	Acceptable (trivial)	No additional controls are required, standard monitoring is required to ensure controls are maintained. Record assessment, inform relevant manager.

Children Specific Risk Information

Children must bring sun cream and sunhats	
Warnings about being alert at the port	
Children must listen to safety instructions
