1:1 Chromebook Contract/Opt Out Form for Students 2018 – 2019

Region 12 Schools provides every child in grades 6-12 a 1:1 Chromebook device to use during the academic school year. Signing this document implies that both parent and student have carefully reviewed the Chromebook Terms of Service, which includes responsibilities and fees for damage. The Terms of Service is published on the Region 12 web site under Parents → Technology & Information Services. Additional copies of this form can be found on the web site in this same area.

I understand the rules stated on the Chromebook Terms of Service and agree to follow them. Signatures of both parent and student must be present, and this form filled out completely or no Chromebook will be issued. Additional copies of this contract are available on the Region 12 website.

Select ONE of the options below.

☐ Option 1: I am accepting a school-issued Chromebook for use this year.

☐ I HAVE PURCHASED (OPTIONAL BUT HIGHLY RECOMMENDED) INSURANCE (purchase online at https://my.worthavegroup.com/region12ct). Insurance may only be purchased within 30 days of taking possession of the Chromebook. This date is recorded by Region 12 staff below.

☐ Option 2: I am using a “personally owned” device and am declining a school-issued Chromebook. Initial below next to each statement.

_____ I understand that I am responsible for having my device in school each day as my classes require an Internet-ready device. During standardized testing a school-issued Chromebook will be provided to me as a loaner.

_____ If I fail to bring my personal device to school, or it is not charged and ready to use, I may request a loaner from the IT Department that must be returned before the end of the school day. Borrowing a loaner requires me to abide by the same Terms of Service in the event that damage is incurred while signed out to me.
