

## Calculator for Algebra and Math 8: TI-Nspire CX Handheld non-CAS

- Advanced graphing functionality
- Backlit, color display
- Rechargeable battery
- USB charging cable included

The TI-Nspire™ CX handheld is a robust, hands-on learning tool that satisfies math and science curriculum needs from middle school through college.

### Calculator

Perform computations and enter expressions, equations and formulas in proper math notation.

### Lists & Spreadsheet

Perform mathematical operations on data and visualize the connections between the data and their plots.

### Graphs

Plot and explore functions, equations and inequalities, animate points on objects and graphs, use sliders to explain their behavior and more.

### Notes

Enter notes, steps, instructions and other comments on the screen alongside the math.

### Geometry

Construct and explore geometric figures and create animations.

### Data & Statistics

Summarize and analyze data using different graphical methods such as histograms, box plots, bar and pie charts and more.

### Vernier DataQuest™ Application

Create a hypothesis graphically and replay data collection experiments all in a single application.
