

MONTCLAIR KIMBERLEY ACADEMY

August 2018

Dear Second Grade Families,

As part of an architecture study in art class this year, second grade students will be looking closely at their homes. Thank you for your help in providing a picture of the front elevation of your home! It is important that the picture is a full view of the front of the home and not taken from an angle, because students will be using the image to study the roof line and other definitive details.

Please help your child complete the form below and have him/her bring the completed form and photograph to the classroom teacher on the first day of school.

Thank you for your cooperation,
Jocelyn Fine
Primary School Fine and Performing Arts Chair

Second Grade Architecture Study Form
