This map is a representation of bicycle facilities available as of June 2018, based on publicly available geographical information systems data. Facilities may differ from those indicated on the map and may not meet your comfort level for bicycling to school. These maps are not a recommendation of a route, but are provided to inform you of the available facilities near the school. It is highly recommended that parents walk or ride the planned route with their child(ren) prior to allowing them to ride to and from school. Map updates are planned in June of 2021.
