Part 2

1. Choose 3 colleges from your Naviance “College Search” and list in the first column of your chart. Make sure to include at least 1 CSU, 1 Out-of-State Public College, and 1 Private school. **We used UCLA as an example to get you started.**
2. For the 3 schools you chose, identify application types and application deadlines in column two. This information can be found on the college’s website under the “deadlines” section.
For example: Santa Clara University: Early Decision: 11/1; Early Action: 11/1 Regular Decision 1/7
You should use the university’s website to find application deadlines
Deadlines for UC’s/CSU’s can be found: universityofcalifornia.edu; csumentor.edu
3. Required Documents – Complete last column of your “College Search Activity” by identifying what documents are required to complete your application. We have listed all possible materials needed under “Required Documents”. Check off what documents are required for each of your chosen colleges. This info can be found on their website under “Application Check List” and/or “Undergraduate Admissions”

List any questions that come up while working on activity and we will discuss them during the presentation!
