

MEMORANDUM

TO: Board of Education
Craig Carter, Business Administrator
Gary R. Payne, A.I.A., Administrator of Facilities Management and Planning

FROM: Bryan J. Turner, A.I.A., Director of Architectural/Construction Services

DATE: February 2, 2016

SUBJECT: Viewmont High School Addition and Remodel Cm/Gc Selection

Proposals from six different construction companies were evaluated by the Professional Services Selection Committee for construction manager/general contractor services for the Viewmont High School Addition and Remodel project. Firms were scored based on their qualifications, past performance and management plans. The Committee then interviewed the following five construction firms:

Ascent Construction
Darrell W. Anderson Construction
Hogan & Associates Construction
Hughes General Contractors
Okland Construction

The interviewed firms were scored on their presentations and their proposed fees were evaluated.

We recommend the Board of Education award the highest scoring contractor for the Viewmont High School Addition and Remodel project to:

Okland Construction

The District has worked with Okland Construction in the past and is a Utah contractor with offices in Salt Lake City.
