Community Meeting #1b

An Encore Presentation of the
Process, Assessments and Visioning Questions

Welcome & Thank You

- Large and Complex Process
 - Assessment, Design, Decisions
- Multiple Committees, Teams and Meetings
- A Repeat of the First of Four Meetings
~ Feb 28, April, Sept

Agenda for Tonight

Share the “Why”

Share Assessment Results

Begin to Gather Your Input

Ask a Few Visioning Questions

Exit Cards:

Are you aware and understand the process?

Do you endorse the process?

Are you willing to engage in the process?

No decisions have been made.

We are beginning to develop,
narrow and refine options

Past, Present & Future

1908
President Theodore Roosevelt

1922
President Warren G. Harding

1924
President Calvin Coolidge

1929
President Herbert Hoover

1932
President Herbert Hoover

Harman = 1908 (109 years)

Lange = 1922 (95 years)

OHS = 1924 (93 years)

Smith = 1929 (88 years)

JH = 1932 (85 years)

**If we want to be in these buildings for
another 20, 50 or 109 years then...**

When is the best time to plant a tree?

Answer: 20 years ago

In 2000 (17 years ago), we had a \$40 million list of improvements we needed/wanted.

The priority was space for the enrollment spike.

We asked for and spent more than \$20 million on additional space and finishes.

Thank goodness, look at all the shade from that tree!

We deferred \$20 million of work primarily in infrastructure (behind the walls).

Present

Well Maintained and Looking Good

However:

- Those systems are 17 years older
- Students, staff and learning have evolved.

Cars 50 years ago

Cars Today

Classrooms 100 years ago

Classrooms 50 years ago

Our Classrooms Today

In 2017, we believe we need to address those infrastructure needs and...

Develop a plan to enhance our learning environments for the present and the future.

Future

5, 10, 50, 109 years down the road?

Our children and our grandchildren?

In other words, we need to plan to
“plant some trees.”

Mr. Todd Duwel, Vice President

Oakwood Board of Education

Reflect

To think deeply or carefully about ...

We all moved to Oakwood based on its
past; its pedigree; its performance; its
promise

Without asking for, or perhaps wanting this charge, we are now that generation that must determine/how/whether Oakwood will continue to attract generations to come and if those sentiments remain important.

We could ignore this responsibility or our community's legacy. We could ignore the shoulders of the giants who keep us elevated.

We are a community of curious, collaborative and courageous leaders. We do not wait for things to happen to us - we are proactive and forward thinking. We seek the best understanding, results, outcomes.

We strive to make important decisions upon the best data, information and resources. We seek “dream teams” to accomplish these objectives and to yield trust, credibility and reliance.

This process intends to gather, inform and present the relevant and material data for our community to determine its next 50 years. No more. No less. No presumptions.

Design Team

Ruetschle Architects - Mike Ruetschle

Emersion Design - Christie Boron

Fanning Howey - Steve Wilczynski & Terry Liette

Join the Process

- Come to Community Meeting #2
Feb 28 @ 7 p.m. in the OHS auditorium
- Visit the website at www.oakwoodschoools.org
- Send your questions and comments to:
Facilities@oakwoodschoools.org,
Ramey.kyle@oakwoodschoools.org
- Call 297-5332

OAKWOOD CITY SCHOOLS: Community Meeting #1

#OneOakwood

HOW DO WE GET THERE?

EDUCATIONAL ASSESSMENTS

OCS EDUCATIONAL ASSESSMENTS

Goal is to evaluate how the school facility supports or impedes the ability to deliver your educational curriculum in the most effective way.

KEY ATTRIBUTES / KEY CONCERNS

Lange School

Key Attributes: "The Lange Experience"

Lange School

Key Attributes: Energetic and Child Centric

Lange School

Key Attributes: Unintimidating and Nurturing

An aerial photograph of a residential neighborhood. A red dashed line outlines a specific area in the center-left. Inside this area is a large building with a red roof and a blue roof, a paved basketball court, and a parking lot. To the left of the outlined area is a street with several houses. To the right is a large green area with trees. At the bottom of the image is a wide road with a yellow center line. In the top right corner, there is a small circular icon with a blue arrow and a vertical scale bar.

Lange School

main entry

Key Concerns: Site Size / Access

Lange School

Key Concerns: Main Entry Security

Lange School

Average Classroom Size = 700 sf
State Standard Classroom Size = 1,200 sf

Key Concerns: Classroom Size

Lange School

Lange School

Key Concerns: PE / Music / Student Dining

Lange School

Key Concerns: Outdoor Learning Environment

An aerial photograph of a suburban neighborhood. In the center, a school building with a grey roof and a white section is visible, surrounded by a red dashed line. To the left of the school is a large green lawn and a basketball court. The area is bordered by streets: Telford Ave to the north, Aberdeen Ave to the east, and an unnamed street to the south. Residential houses with various roof colors and styles are scattered throughout the area, interspersed with trees. A black banner with white text is at the top left, and another banner with white text is at the bottom left.

Smith Elementary

Key Attributes: Site Location / Access / Wright Library

A photograph of a large, multi-story brick building with a steep gabled roof, dormer windows, and a prominent arched entrance. The building is constructed of red brick with white stone accents around the windows and entrance. The sky is blue with scattered white clouds. A black banner with white text is overlaid in the top left corner.

Harman Elementary

Average Classroom Size = 750 sf
State Standard Classroom Size = 900 sf

Key Attributes: Classroom Size

Harman Elementary

Key Attributes: Classroom Storage

Harman Elementary

Key Attributes: Dedicated Performance Space

An aerial photograph of Harman Elementary school and its surrounding neighborhood. The school building is a large, multi-winged structure with a grey roof and red brick accents. It is surrounded by a red dashed line that outlines the school's site. To the right of the school is a large, paved parking lot with several cars parked. The surrounding area is a residential neighborhood with many houses, trees, and streets. A road with a yellow center line runs along the right side of the school site. The text "Harman Elementary" is overlaid in the top left corner, and "Key Concerns: Site Size / Circulation / Access" is overlaid in the bottom right corner.

Harman Elementary

Key Concerns: Site Size / Circulation / Access

Harman Elementary

***The dollars allocated in this assessment are dollars spent solely addressing existing systems. These values do not include dollars for *value-added* projects**

Potential Value-added projects to add to the 'Cost to Maintain' Number

- Sprinkler Systems throughout entire buildings
- Entire building central air
- Improved Handicap accessibility
- Site circulation improvements
- Enhanced security systems
- LED lighting
- Power upgrades
- Creating larger, flexible and varied teaching spaces
- Creating collaborative and community spaces

RENEWAL INDEX %

How much will we spend to maintain our buildings over time compared to the cost to build a new building of the same size?

$$RI(\%) = \frac{\text{Cost to Maintain}}{\text{Cost to Build New}}$$

21.5 C SCHOOL DESIGN... RICH AND STIMULATING ENVIRONMENT

respect tradition ~ honor your past ~ be dependable ~ listen ~ believe in each other ~ be warm ~ encourage

21.5 C SCHOOL DESIGN... OWNERSHIP OF SPACE

pride ~ empower ~ self-advocacy ~ encourage creativity ~ build trust ~ cultivate independence while setting boundaries

21.5 C SCHOOL DESIGN... GLOBAL CONNECTION SPACE

Enables one to: raise awareness ~ start conversations ~ find answers (to THEIR questions) ~ join partners ~ change minds ~ make a difference ~ take action ~ drive change

21.5 C SCHOOL DESIGN... BE ADAPTIVE

provide flexibility ~ extended learning

21.5 C SCHOOL DESIGN... BE COLLABORATIVE

think ~ question ~ design ~ create ~ struggle ~ collaborate ~ try ~ solve ~ invent ~ reflect

21.5 C SCHOOL DESIGN... VISIBILITY

welcoming ~ accountability ~ observe ~ connections ~ leadership ~ collaborative curiosity ~ courage ~ peer 2 peer learning

21.5 C SCHOOL DESIGN... EQUITABLE

classroom = equalizer ~ find their potential ~ success for ALL learners and ALL abilities

BLUE AND GOLD SKY THINKING

Visioning Questions

Should Lange remain a stand-alone building,
or should kindergarten be included with the
other early elementary grades?

Would you support separate primary and
intermediate school buildings?

Would you prefer a 6-8 Middle School
or a 7-8 Junior High?

What do you think about having a single
PK-12 campus?

What do you think about a new district
performing arts center?

Would you support enhancements to our athletic facilities and/or the development of a new health & wellness center?

Would you support relocation of athletic fields and Mack Hummon stadium in order to address site constraint issues?

Would you support partial or full demolition of our existing school building(s) in order to develop new facilities that support current best practices in education?

BLUE AND GOLD SKY THINKING
