INDEPENDENT AUDITOR'S REPORT

Governing Board
Fremont Union High School District
Sunnyvale, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Fremont Union High School District (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Standards and Procedures for Audits of California K-12 Local Education Agencies 2013-2014*, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Fremont Union High School District, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Change in Accounting Principles

As discussed in Note 1 to the financial statements, the District has adopted the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which has resulted in a restatement of beginning net position in the government-wide financial statement. The impact of the restatement is a reduction in beginning net position of \$2,521,734. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the other post employment benefits schedule of funding progress, management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fremont Union High School District's basic financial statements. The accompanying supplementary information listed in the table of contents, including the Schedule of Expenditures of Federal Awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 1, 2014, on our consideration of the Fremont Union High School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Fremont Union High School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2014

This section of Fremont Union High School District's (FUHSD) annual financial report presents management's discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2014. Please read it in conjunction with the District's financial statements, which immediately follow this section. Comparative analyses are presented in the tables that follow:

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the Fremont Union High School District (the District) using the integrated approach as prescribed by GASB Statement Number 34.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting and include the governmental activities. These statements include all assets of the District (including capital assets) as well as all liabilities (including long-term debt). Additionally, certain eliminations have occurred as prescribed by the statement in regards to interfund activity, payables and receivables.

The *Fund Financial Statements* include statements for each of the three categories of activities: governmental, proprietary, and fiduciary.

The *Governmental Activities* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

The *Fiduciary Activities* are prepared using the economic resources measurement focus and the accrual basis of accounting.

Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach.

The financial statements also include notes that explain some of the information in the statements and provide detailed data. The statements are followed by a section of required supplementary budget information that further explains and supports the financial statements.

The Primary unit of the government is the Fremont Union High School District.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2014

FINANCIAL HIGHLIGHTS OF THE PAST YEAR

The 2013-14 State Budget is balanced and has the first real reserve in years. After considerable negotiations between the Legislature and the Governor, state policy makers enacted the Local Control Funding Formula (LCFF) to replace revenue limits, commencing in 2013-14. This is the most sweeping reform of the state's school finance system since the enactment of Senate Bill 90 in the early 1970's. In addition, the State Budget establishes a comprehensive local accountability system, which will require local educational agencies (LEAs), to adopt a local control and accountability plan (LCAP). The LCAP must include local goals that reflect priorities of the state, student achievement measures, parent engagement strategies, and a report on school climate.

The District continues to rely upon the \$5.2 million received annually from the parcel tax that was originally approved by the voters in November 2004. On May 4, 2010, District voters renewed the parcel tax for a period of six years. In accordance with the ballot language, the funds are used to preserve core academic classes and retain experienced teachers. The District has been careful to track the particular programs funded through parcel tax revenues.

The District received its second general obligation bond authorization of \$198 million in November 2008. At the time of the election, the District indicated to voters that the maximum tax rate in connection with the authorization would be \$18 per \$100,000 in assessed value. The Series 2008 bonds were issued entirely as current interest bonds, but by 2011, it became clear that the District would need to issue some capital appreciation bonds, or CABs to stay within the tax rate target. The need for CABs was driven by two factors – less than projected tax base growth (due to the housing crisis) and the desire to use the full amount of the qualified school construction bond, or QSCB, allocation. The QSCB program allowed the District to issue bonds at federally subsidized rates, but under certain conditions – one of which included a requirement that the bonds needed to be repaid within 15 years. The QSCB program was originally expected to attract over \$14.6 million in federal subsidies (before factoring in any effect of sequestration), but constrained the program in the earlier years. In order to lower the number of CABs issued under the program, the District downsized the Series 2011 bonds by \$5 to \$10 million.

California school district bond programs have recently garnered increased attention from a number of sources (including State and County Treasurers, local/national media, and taxpayer groups). Capital appreciation bonds, or CABs, and the associated deferral of debt service payments have come under the largest scrutiny. The District had issued \$16.09 million as CABs as part of the Series 2011 issuance and would have needed to issue more CABs as part of the Series 2013 to stay within the \$18 tax rate target using conservative tax base growth assumptions. In response to the current political circumstances, the District provided a number of options to the Board. The Board selected to issue the remaining 2008 authorization entirely as current interest bonds even with the possibility that the tax rates would drift above the \$18 tax rate target. It was estimated that the impact of the additional interest costs in earlier years from issuing current interest bonds would be approximately 50 cents above the tax rate target. The District may still stay within the tax rate targets if it experiences better than projected tax base growth.

As required by the Education Code of the State and the 2008 bond authorization, the District has established a Citizens Oversight Committee to review the District's expenditure of bond proceeds and its progress in completing the projects specified in the measure, and to make periodic reports to the public in order to ensure that bond funds are spent only for authorized purposes.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2014

The District's residency verification program continued in 2013-14 as the District remains committed to this effort. The program now contains a full time investigator and two part time investigators along with a manager and clerical support positions. Enrollment continues to escalate, topping 10 thousand this year, making the residency efforts even more important. Though all of our schools have seen increased enrollment in the last 5 years, the greatest impact has been at Cupertino, Homestead and Fremont High Schools. Each of these schools are projected to have enrollment of over 2,700 in the next ten years.

The relationship between all of our bargaining groups continues to be collaborative and positive. This includes our Classified Union – CSEA, our Certificated Union – FEA, and our newest bargaining group AFT which represents our Adult and Community Education employees.

2013-14 marked the second consecutive year that each bargaining group participating in the Revenue Sharing Process saw positive returns.

The District had meetings with both Moody's Investor Services and Standard & Poor's in connection with the issuance of the Series 2013 bonds. The District received an upgrade from Standard & Poor's to "AAA" from "AA+". The District now has the highest rating given out by Standard & Poor's (and is incidentally rated higher than the nation)! Standard & Poor's cited the District's entrenchment in basic aid status, strong operations, and maintenance of very strong reserves as the basis for the District's upgrade. Moody's affirmed their "Aa1" rating, which is already the highest rating that Moody's gives out to California school districts.

In order to provide facilities, programs, and staffing needed for a first class education for our students, on July 8, 2014, the Board of Trustees voted to place measures J and K on the November 4, 2014 ballot.

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Position and the Statement of Activities

The *Statement of Net Position* and the *Statement of Activities* report information about the District as a whole and about its activities. These statements include all assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in it. Net position is the difference between assets and liabilities, and is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is shown in the District's operating results. Since the Board's responsibility is to provide services to students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of education and the safety of our schools will likely be an important component in this evaluation.

FREMONT UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2014

In the *Statement of Net Position* and the *Statement of Activities*, we include the District activities as follows:

Governmental activities - All of the District's services are reported in this category. This includes the education of kindergarten through twelfth grade students, adult education students, the operation of child development activities, and the on-going effort to improve and maintain buildings and sites. Property taxes, state income taxes, user fees, interest income, Federal, state, and local grants, as well as general obligation bonds, finance these activities.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. and California Departments of Education.

Governmental funds - Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences in results between the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

Proprietary funds - When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the *Statement of Net Position* and the *Statement of Revenues, Expenses and Changes in Fund Net Position*. We use internal service funds (a type of proprietary funds) to report activities that provide supplies and services for the District's other programs and activities - such as the District's Self-Insurance Fund. The internal service funds are reported with governmental activities in the government-wide financial statements.

THE DISTRICT AS TRUSTEE

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for funds held on behalf of others, like the funds for associated student body activities. The District's fiduciary activities are reported in the *Statements of Fiduciary Net Position*.

These activities are excluded from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

FREMONT UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2014

THE DISTRICT AS A WHOLE

Net Position

The District's net position was \$134.48 million for the fiscal year ended June 30, 2014. Of this amount, \$46.38 million was unrestricted. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board's ability to use the net position for day-to-day operations. The analysis below focuses on net position (Table 1) and the change in net position (Table 2) of the District's governmental activities.

TABLE 1

(Amounts in millions)	<u>2013</u>	<u>2014</u>	<u>CHANGE</u>
Current and other assets	\$ 150.30	\$ 121.24	\$ (29.06)
Capital assets	319.67	347.92	28.25
Total Assets	<u>469.97</u>	<u>469.16</u>	<u>(0.81)</u>
Current liabilities	18.96	20.60	1.64
Long-term liabilities	319.78	314.07	(5.71)
Total Liabilities	<u>338.74</u>	<u>334.67</u>	<u>(4.07)</u>
Net Position			
Net investment in capital assets	65.13	62.34	(2.79)
Restricted	24.02	25.76	1.74
Unrestricted	42.08	46.38	4.30
Total Net Position	<u>\$ 131.23</u>	<u>\$ 134.48</u>	<u>\$ 3.25</u>

The \$46.38 million in unrestricted net position of governmental activities represents the accumulated results of all past years' operations. It means that if the District had to pay off all of its bills today including all of its non-capital liabilities (compensated absences as an example), there would be \$46.38 million remaining. Though listed as unrestricted for purposes of this report, the \$35.73 million of the \$46.38 net position is committed or assigned to various programs of the district.

Changes in Net Position

The results of this year's operations for the District as a whole are reported in the *Statement of Activities* on page 16. Table 2 takes the information from the Statement, rounds off the numbers, and rearranges them slightly so you can see the total revenues for the year.

Governmental Activities

As reported in the Statement of Activities on page 16 the cost of all governmental activities this year was \$143.14 million. However, the amount that the taxpayers ultimately financed for these activities through local taxes was \$119.86 million because the cost was paid by those who benefited from the programs or by other governments and organizations who subsidized certain programs with grants and contributions (\$9.41 million). The District paid for the remaining "public benefit" portion of our governmental activities with \$22.37 million in state revenue limit sources, State funds and with other revenues, like interest and general entitlements.

FREMONT UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2014

Table 3 below presents the net cost of each of the District's largest functions. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Other General Administration activities include fiscal services, personnel services, and central support services. This category includes attendance recording and reporting activities performed at the District level. This category also includes all other costs of property or general liability insurance not charged to a specific function. In addition, the costs of assistant superintendents for instruction or equivalent positions having first-line responsibility for instructional administration and for participation in district/county policy may be charged as follows:

- 50 percent to Instructional Supervision and Administration (Function 2100)
- 50 percent to Other General Administration (Function 7200)

FREMONT UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2014

THE DISTRICT'S FUNDS

As the District completed this year, governmental funds had a reported combined fund balance of \$105.33 million, which is a decrease of \$27.75 million from last year.

The primary reasons for these changes are:

- a) The General Fund is the principal operating fund. The fund balance in the General Fund increased from \$19.44 million to \$24.53 million. This increase was primarily due to one-time Common Core funding and an increase in property tax.
- b) The Building fund showed a decrease from \$86.50 million to \$51.68 million. This was primarily due to a combination of spending down the bond proceeds for modernization projects, and the final series of the bonds were issued in January 29, 2013.
- c) The Bond Interest and Redemption fund increased from \$17.51 million to \$18.58 million. This was primarily due to an increase in funds set aside for future debt redemption associated with the new bond sale.

General Fund Budgetary Highlights

The Education Code requires that all school districts adopt a budget by July 1, and then twice a year submit to their County Offices of Education interim financial reports. These first and second interim reports reflect the status of district finances as of October 31 and January 31. Year-end actuals are submitted by September 15.

Over the course of the year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The final amendment to the budget was adopted on June 10, 2014. A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in the annual report on page 57.

Significant revenue and expenditure revisions to the 2014-15 budgets were made. This is primarily due to salary increases and school site carryover from 2013-14 at the time of budget adoption.

FREMONT UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2014

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2014, the District had \$347.91 million in a broad range of capital assets, including land, buildings, and furniture and equipment. This amount represents a net increase (including additions, depreciation and disposal) of \$30.97 million from last year.

TABLE 4

(Amounts in millions)	Governmental Activities		
	2013	2014	CHANGE
Land	\$ 1.96	\$ 1.96	\$ -
Construction in progress	40.69	19.17	(21.52)
Buildings and improvements	314.38	373.81	59.43
Furniture and equipment	3.70	5.11	1.41
Total Assets	360.73	400.05	39.32
Less Accumulated Depreciation	(43.79)	(52.14)	(8.35)
Totals	\$ 316.94	\$ 347.91	\$ 30.97

This year's additions included school modernization of \$37.91 million, and equipment of \$1.41 million. Several capital projects are planned for completion in the 2014-2015 year. More information about our capital assets is presented in Note 4 to the financial statements.

Long-Term Obligations

At the end of this year, the District had \$314.07 million in long-term debt outstanding versus \$319.78 million last year, a decrease of 1.79 percent.

TABLE 5

(Amounts in millions)	Government Activities		
	2013	2014	CHANGE
General obligation bonds and premiums	\$ 311.73	\$ 304.19	\$ (7.54)
Compensated absences	0.85	0.81	(0.04)
Other postemployment benefits obligations	7.20	9.07	1.87
Totals	\$ 319.78	\$ 314.07	\$ (5.71)

The District's general obligation bond rating is Aa1 (based on Moody's Investor Services) and AAA (based on Standard & Poor's). The State limits the amount of general obligation debt that the District can issue. The District's outstanding general obligation bond debt of \$304.19 million is below this limit.

Other obligations include compensated absences payable. More detailed information regarding our long-term liabilities is presented in Note 9 of the financial statements.

FREMONT UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2014

The District has an estimated liability of \$9.07 million for OPEB (other post-employment benefits). During fiscal year 2006-2007 the District established an irrevocable trust with American United Life that is administered by MidAmerica to fund this liability. The trust had a restricted fund balance of \$6.59 million at June 30, 2014. The formation of this irrevocable trust protects the funds set aside for retiree benefits and was an important element to the District being an early adopter of GASB 45, implementing the requirements three years ahead of schedule.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's 2014-2015 Budget

District Administration is projecting that its financial position will improve for the 2014-15 Budget. The State enacted the Local Control Funding Formula (LCFF) to replace revenue limits and most categorical programs, commencing in 2014-15. This is the most sweeping reform of the state's school finance system since the enactment of Senate Bill 90 in the early 1970's, the Legislature's response to the landmark Serrano court decision.

Enrollment is projected to increase by approximately 81 students, but we are uncertain about the economy's impact on long term projections. Current projections show a 10 year period of increasing enrollment. In the area of employee compensation, there is no salary increase budgeted for 2014-15.

The Homestead and Fremont High School Cafeteria/Kitchen/Classroom projects are under construction and should be completed by summer of 2015. The Homestead Boiler/Infrastructure project is slated to be completed by the end of 2015.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2014

Total Net Change in Fund Balances - Governmental Funds **\$ (27,745,436)**
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

Capital outlay to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which capital outlays exceeds depreciation in the period.

Capital outlays	39,396,675
Depreciation expense	<u>(8,354,783)</u>
Net Expense Adjustment	31,041,892

Loss on disposal of capital assets is reported as an expense in the statement of activities, but is not recorded on the governmental funds. (78,197)

In the Statement of Activities, certain operating expenses, such as compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). Vacation earned was less than the amounts used. 31,998

The underfunded portion of the Annual Required Contribution (ARC) of the other postemployment benefits is not recorded in the governmental funds. In the statement of activities, the underfunded portion of the ARC is recognized as expenses. (1,873,076)

Amortization of bond premiums reduce long-term obligations in the statement of net position and is recorded in the statement of activities as revenue, but does not affect the governmental funds. 762,473

Payment of principal on long-term obligations is an expenditure in the governmental funds, but it reduces long-term obligations in the statement of net position and does not affect the statement of activities. 8,980,000

Accreted interest is not an expenditure in the governmental funds, but it increases the long-term liabilities in the statement of net position and is reflected as additional interest expense in the statement of activities.	(2,188,837)
Interest on long-term obligations is recorded as an expenditure in the funds when it is due; however, in the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due.	(623,527)
An internal service fund is used by the District's management to charge the costs of the self-insurance program to the individual funds. The net loss of the Internal Service fund is reported with governmental activities.	189,357

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Fremont Union High School District was organized in 1925 under the laws of the State of California. The District operates under a locally elected five-member Board form of government and provides educational services to grades 9-12 as mandated by the State and Federal agencies. The District operates five high schools, one alternative high school, one adult, and one independent study school.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Fremont Union High School District, this includes general operations, food service, and student related activities of the District.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into three broad fund categories: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for and report all financial resources not accounted for reported in another fund.

Building Fund The Building Fund exists primarily to account separately for proceeds from sale of bonds and acquisition of major governmental capital facilities and buildings.

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used to account for the accumulation of resources for, and the repayment of, district bonds, interest, and related costs.

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue Funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to expenditures for specified purposes and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Adult Education Fund The Adult Education Fund is used to account separately for Federal, State, and local revenues for adult education programs and is to be expended for adult education purposes only, except, for State revenues which, as a result of Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4), may be used for any educational purpose.

Cafeteria Fund The Cafeteria Fund is used to account separately for Federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

Deferred Maintenance Fund The Deferred Maintenance Fund is used to account separately for State apportionments and the District's contributions for deferred maintenance purposes (*Education Code* Sections 17582-17587) and for items of maintenance approved by the State Allocation Board.

Capital Project Funds The Capital Project funds are used to account for financial resources that are restricted, committed, or assigned to the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approving a development (*Education Code* Sections 17620-17626). Expenditures are restricted to the purposes specified in Government Code Sections 65970-65981 or to the items specified in agreements with the developer (Government Code Section 66006).

County School Facilities Fund The County School Facilities Fund is established pursuant to *Education Code* Section 17070.43 to receive apportionments from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), the 2004 State School Facilities Fund (Proposition 55), or the 2006 State Schools Facilities Fund (Proposition 1D) authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code* Section 17070 et seq.).

Proprietary Funds Proprietary funds are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which a fee is charged to external users or to other organizational units of the local education agency, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting and are classified as enterprise or internal service.

Internal Service Fund Internal service funds may be used to account for goods or services provided to other funds of the District on a cost reimbursement basis. The District operates a workers' compensation, dental, vision, and property and liability programs that are accounted for in an internal service fund.

Fiduciary Funds Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the District's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Trust funds are used to account for the assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore, not available to support the District's own programs. The District's trust funds include the Retiree Benefits fund. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. The District's trust fund accounts for contribution and payments related to retiree benefit activities and agency fund accounts for student body activities (ASB).

Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues of the District and for each governmental function, and exclude fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the Statement of Activities, except for depreciation. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net position should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities result from special revenue funds and the restrictions on their net asset use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements.

Governmental Funds All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

Proprietary Funds Proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net position. The statement of changes in fund net position presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District.

Revenues – Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 45 or 60 days. However, to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned Revenue Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Certain grants received before the eligibility requirements are met are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the government-wide statements.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments held at June 30, 2014, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county are determined by the program sponsor.

Prepaid Expenditures

Prepaid expenditures (expenses) represent amounts paid in advance of receiving goods or services. The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditures in the benefiting period.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the weighted average basis. The costs of inventory items are recorded as expenditures in the governmental funds and expenses in the proprietary funds when used.

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$10,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets is the same as those used for the capital assets of governmental funds. Depreciation is computed using the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings and building improvement, 50 years; equipment, 5 to 15 years.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated within the governmental funds and governmental activities.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide statement of net position. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the governmental fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and other long-term obligations are recognized as liabilities in the governmental fund financial statements when due.

Debt Issuance Costs, Premiums and Discounts

In the government-wide financial statements and in the proprietary fund type financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Debt premiums and discounts, as well as issuance costs, related to prepaid insurance costs are amortized over the life of the bonds using the straight-line method.

In governmental fund financial statements, debt premiums and discounts, as well as debt issuance costs are recognized in the current period. The face amount of the debt is recorded as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Fund Balances – Governmental Funds

As of June 30, 2014, fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws of regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board.

Assigned – amounts that do not meet the criteria to be classified as restricted or committed by that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or chief business officer/assistant superintendent of business services may assign amounts for specific purpose.

Unassigned – all other spendable amounts.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally, unassigned funds as needed, unless, the governing board has provided otherwise in its commitment or assignment actions.

Minimum Fund Balance Policy

In fiscal year 2013-2014, the governing board adopted a minimum fund balance policy for the General Fund in compliance with GASB 54 to establish fund balance policies in order to protect the district against revenue shortfalls or unpredicted one-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than 10 percent of General Fund expenditures and other financing uses. At June 30, 2014, \$9,134,382 of the Fund balance for the General Fund was reported as amounts unassigned and held for economic uncertainties.

Net Position

Net position represents the difference between assets and liabilities. Net position net of investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are primarily interfund insurance premiums. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Interfund Activity

Transfers between governmental and business-type activities in the government-wide financial statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental column of the statement of activities.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

The budgetary process is prescribed by provisions of the California *Education Code* and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1st of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For budget purposes, on behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Santa Clara bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

Change in Accounting Principles

As the result of implementing GASB Statement No. 65, the District has restated the beginning net position in the government-wide Statement of Net Position, effectively decreasing net position as of July 1, 2013, by \$2,521,734. The decrease results from no longer deferring and amortizing bond issuance costs.

New Accounting Pronouncements

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement.

The scope of this Statement addresses accounting and financial reporting for pensions that are provided to the employees of state and local governmental employers through pension plans that are administered through trusts that have the following characteristics:

- Contributions from employers and non-employer contributing entities to the pension plan and earnings on those contributions are irrevocable.
- Pension plan assets are dedicated to providing pensions to plan members in accordance with the benefit terms.
- Pension plan assets are legally protected from the creditors of employers, non-employer contributing entities, and the pension plan administrator. If the plan is a defined benefit pension plan, plan assets also are legally protected from creditors of the plan members.

Note disclosure and required supplementary information requirements about pensions also are addressed. Distinctions are made regarding the particular requirements for employers based on the number of employers whose employees are provided with pensions through the pension plan and whether pension obligations and pension plan assets are shared. Employers are classified in one of the following categories for purposes of this Statement:

- Single employers are those whose employees are provided with defined benefit pensions through single-employer pension plans—pension plans in which pensions are provided to the employees of only one employer (as defined in this Statement).
- Agent employers are those whose employees are provided with defined benefit pensions through agent multiple-employer pension plans—pension plans in which plan assets are pooled for investment purposes but separate accounts are maintained for each individual employer so that each employer's share of the pooled assets is legally available to pay the benefits of only its employees.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

- Cost-sharing employers are those whose employees are provided with defined benefit pensions through cost-sharing multiple-employer pension plans—pension plans in which the pension obligations to the employees of more than one employer are pooled and plan assets can be used to pay the benefits of the employees of any employer that provides pensions through the pension plan.

In addition, this Statement details the recognition and disclosure requirements for employers with liabilities (payables) to a defined benefit pension plan and for employers whose employees are provided with defined contribution pensions. This Statement also addresses circumstances in which a non-employer entity has a legal requirement to make contributions directly to a pension plan.

This Statement is effective for fiscal years beginning after June 15, 2014. Early implementation is encouraged.

In November 2013, the GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date — An Amendment of GASB Statement No.68*. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

Statement 68 requires a state or local government employer (or nonemployer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a state or local government employer or nonemployer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources. In addition, Statement 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a state or local government employer or nonemployer contributing entity that arise from other types of events. At transition to Statement 68, if it is not practical for an employer or nonemployer contributing entity to determine the amounts of *all* deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement 68 required that beginning balances for deferred outflows of resources and deferred inflows of resources not be reported.

Consequently, if it is not practical to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, contributions made after the measurement date of the beginning net pension liability could not have been reported as deferred outflows of resources at transition. This could have resulted in a significant understatement of an employer or nonemployer contributing entity's beginning net position and expense in the initial period of implementation.

This Statement amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Statement 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts.

The provisions of this Statement are required to be applied simultaneously with the provisions of Statement 68.

Investment in annuities	6,291,996
Total Deposits and Investments	<u>\$ 124,585,024</u>

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by depositing substantially all of its funds in the County Treasury Pool. The District's retiree benefit plan also has an annuity account with a third party for the reserve of the future retiree benefit payments.

The District monitors the interest rate risk inherent in its portfolio by measuring the average maturity of its portfolio. Information about the weighted average maturity of the District's portfolio is presented in the following schedule:

Investment Type	Costs	Fair Value	Average Maturity in Days
County Pool	\$ 108,555,502	\$ 108,556,696	416

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The annuity with ING ReliaStar Group is a fixed investment product with ING that is principal protected and guarantees a 3 percent minimum rate of return. ReliaStar Life Insurance Company has a rating from Standard and Poor's of AA.

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2014, approximately \$8,912,276 of the District's bank balances of 9,788,525 was exposed to custodial credit risk because it was uninsured but collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 11 - RESTATEMENT OF THE FINANCIAL STATEMENT

The restatement resulted from the overstatement of the depreciation expenses in the prior years. The amount adjusted amounted to \$2,710,070 to reduce the accumulative depreciation and net investment in capital assets on the government-wide Statement.

NOTE 12 - LEASE REVENUES

The District has leased properties built in the 1950's where the total construction costs have been fully depreciated for a number of years. Lease agreements have been entered into with various lessees for terms that exceed one year. None of the agreements contain purchase options. All of the agreements contain a termination clause providing for cancellation after a specified number of days written notice to lessors, but is unlikely that the District will cancel any of the agreements prior to their expiration date. The future minimum lease payments expected to be received under these agreements are as follows:

Year Ending June 30,	Lease Payment

NOTE 13 - RISK MANAGEMENT

Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year ending June 30, 2014, the District participated in the Northern California Regional Liability Excess Fund (ReLiEF) for excess property and liability coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

For fiscal year 2014, the District participated in the Santa Clara County Schools Insurance Group for the workers' compensation coverage.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Claims Liabilities

The District records an estimated liability for Workers' Compensation claims filed prior to March 1, 1996. Claims liabilities are based on estimates of the ultimate cost of reported claims (including future claim adjustment expenses) and estimates for claims incurred, but not reported based on historical experience for some self insured programs, such as dental, vision and property and liability.

Unpaid Claims Liabilities

The fund establishes a liability for both reported and unreported events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represents the changes in approximate aggregate liabilities for the District from July 1, 2012 to June 30, 2014:

	Workers' Compensation	Dental	Vision	Property and Liability	Total

NOTE 14 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer retirement plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

CalSTRS

Plan Description

The District contributes to the California State Teachers' Retirement System (CalSTRS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, at 100 Waterfront Place, West Sacramento, CA 95605.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Funding Policy

Active plan members are required to contribute 8.0 percent of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by CalSTRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2013-2014 was 8.25 percent of annual payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalSTRS for the fiscal years ending June 30, 2014, 2013, and 2012, were \$4,297,489, \$4,048,611 and \$3,914,775, respectively, and equal 100 percent of the required contributions for each year.

CalPERS

Plan Description

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95811.

Funding Policy

Active plan members are required to contribute 7.0 percent of their salary and the District is required to contribute an actuarially determined rate. Effective January 1, 2013, new employees are required to contribute 6.0 percent. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2013-2014 was 11.442 percent, of covered payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalPERS for the fiscal years ending June 30, 2014, 2013, and 2012, were \$2,481,727, \$2,222,313, and \$1,988,303, respectively, and equal 100 percent of the required contributions for each year. The payments noted above include employee contribution amounts paid by the district on behalf of their employees.

Social Security

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use the APPLE Retirement Program as its alternative plan. Contributions made by the District and an employee vest immediately. The District contributes 1.3 percent of an employee's gross earnings. An employee is required to contribute 6.2 percent of his or her gross earnings to the pension plan.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of \$2,626,680, \$2,324,834, and \$2,183,004, for fiscal years ending June 30, 2014, 2013 and 2012 (5.541 percent of 13-14 annual payroll, 5.17 percent of 12-13 annual payroll and 4.267 percent of 11-12 annual payroll). Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements. On behalf payments have been excluded from the calculation of available reserves, and have not been included in the budget amounts reported in the General Fund Budgetary Comparison Schedule.

NOTE 15 - POSTEMPLOYMENT HEALTH CARE PLAN AND OPEB OBLIGATION

Plan Description

The Retiree Health and Welfare Benefit (the "Plan") is a single-employer defined benefit healthcare plan administered by the Fremont Union High School District. The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Membership of the plan consists of 119 retirees and beneficiaries currently receiving benefits and 948 active plan members. The Plan is presented in these financial statements as the Retiree Benefits Trust Fund. Separate financial statements are not prepared for the Trust.

Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the District and the Fremont Educators Association (FEA), the local California Service Employees Association (CSEA), and unrepresented groups. The required contribution is based on a closed 30 year amortization period and the level dollar method for the implementation year, and an open 30 year amortization period and level percentage of payroll method for subsequent years. For fiscal year 2013-2014, the District contributed \$879,342 to the plan, of which 690,293 was used for current premiums. Plan members receiving benefits contributed approximately 21 percent of the total premiums. The District contributes \$873, \$724 and \$2,715 monthly for FEA, CSEA and FMA, respectively. Any premiums over the District's contribution are paid by plan members.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the Plan:

Annual required contribution	\$ 2,553,518
Interest on net OPEB obligation	198,900
Annual OPEB cost (expense)	<u>2,752,418</u>
Contributions made	<u>(879,342)</u>
Increase in net OPEB obligation	1,873,076
Net OPEB obligation, beginning of year	<u>7,201,863</u>
Net OPEB obligation, end of year	<u><u>\$ 9,074,939</u></u>

The trend information for annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for the past six years is as follows:

Year Ended June 30	Annual OPEB Cost	Actual Contributions	Percentage Contributed	Net OPEB Obligation
2014	\$ 2,752,418	\$ 879,342	31.95%	\$ 9,074,939
2013	2,224,754	903,699	40.62%	7,201,863
2012	1,725,317	1,075,102	62.31%	5,880,808
2011	1,736,931	1,362,779	78.46%	5,230,593
2010	1,726,231	1,360,432	78.81%	4,856,441
2009	2,990,261	1,595,182	53.35%	4,483,877

Funded Status and Funding Progress

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, investment returns, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

A Schedule of funding progress as of the most recent actuarial valuation is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Liability (AAL) - Entry Age Normal (b)	Unfunded AAL (UAAL) (b - a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b - a) / c)
March 1, 2014	\$ 6,240,219	\$ 16,337,524	\$ 10,097,305	38%	\$ 73,382,732	14%

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the March 1, 2014, actuarial valuation, the entry age normal method was used. The actuarial assumptions included a 5.3 percent investment rate of return (net of administrative expenses), based on the plan being funded in an irrevocable employee benefit trust invested in a long-term fixed income portfolio. Healthcare cost trend rate, including Dental and Vision programs, assumed to be 4 percent. The UAAL is being amortized using a level percentage of payroll method. The calculation uses an open 30 year amortization period for the initial UAAL and an open 30 year amortization period for any residual UAAL. The remaining amortization period at July 1, 2014, was 30 years. At June 30, 2014, the Trust held net position in the amount of \$6,585,735.

NOTE 16 - COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2014.

Litigation

The District is involved in various litigations arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2014.

NOTE 17 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS AND JOINT POWER AUTHORITIES

The District is a member of the Silicon Valley Joint Powers Transportation Agency (SVJPA), the Santa Clara County Schools Insurance Group (SCCSIG), and the Northern California Regional Liability Excess Fund (North CalReLiEF). The relationship between the District, the pools and the JPA's are such that they are not component units of the District for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are generally available from the respective entities.

The District has appointed one board member to the Governing Board of SVJPA, SCCSIG, and North CalReLiEF.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2014

During the year ended June 30, 2014, the District made payments as follows:

Related Entities	Service Payments	Service provided
SVJPA	\$ 1,982,357	Transportation for special education students
SCCSIG	949,968	Excess workers' compensation insurance
North CalReLIEF	489,892	Property and liability insurance

NOTE 18 - SUBSEQUENT EVENT

Tax and Revenue Anticipation Notes

The District issued \$5,000,000 of Tax and Revenue Anticipation Notes dated July 1, 2014. The notes mature on June 30, 2015, and yield 1 percent interest. The notes were sold to supplement cash flow. Repayment requirements are that 50 percent, percentage of principal and interest be deposited with the Fiscal Agent by April 2015, until 100 percent of principal and interest due is on account in June 2015.

All Other Subsequent Events

The District's management has evaluated events or transactions that may occur for potential recognition or disclosure in the financial statements from the statement of net position dated through November 3, 2014, which is the date the financial statements were available to be issued. Management has determined that there were no subsequent events or transactions that would have a material impact on the current year financial statements.

NOTE 19 - RESTATEMENT OF PRIOR YEAR NET POSITION

The District adopted GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, in the current year. Under the provisions of GASB 65, deferred issuance costs are now considered to be period expenses and are no longer deferred and amortized to expense. In addition, the District noted that there were compiling error in the prior year pertaining the District's capital assets. As a result, the deferred issuance costs and capital asset correction as of June 30, 2013 of \$2,521,734 and \$2,720,750, respectively, have been offset against beginning net position in the government-wide financial statements as follows. and restated the beginning balance of its capital assets due to compiling error in the prior year. As a result, the effect on the current fiscal year is as follows:

Statement of Net Position

Net Position - Beginning	\$ 131,231,085
Restatement of cost of issuance	(2,521,734)
Restatement of capital assets	(2,720,750)

The General Fund balance has increased by \$2,977,165 over the past two years. The fiscal year 2014-2015 budget projects an decrease of \$1,079,418 (4 percent). For a district this size, the State recommends available reserves of at least 3 percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating surplus in the past two years but anticipates incurring an operating deficit during the 2014-2015 fiscal year. Total long-term obligations have increased by \$36,090,366 over the past two years mainly due to the \$48 million new general obligation bonds' issuance in the prior year.

Average daily attendance has increased by 191 over the past two years. An increase of 14 ADA is anticipated during fiscal year 2014-2015.

¹ Budget 2015 is included for analytical purposes only and has not been subjected to audit.

² Available reserves consist of all unassigned fund balances including all amounts reserved for economic uncertainties contained with the General Fund.

³ On-behalf payments of \$2,574,934, \$2,276,942, and \$2,138,907, recorded in the general fund have been excluded from this schedule and from the calculation of available reserves for fiscal years ending June 30, 2014, 2013, and 2012, respectively.

⁴ Excludes adult ADA.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2014

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying schedule of expenditures of Federal awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the United States Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenditures, and Changes in Fund Balance and the related expenditures reported on the Schedule of Expenditures of Federal Awards.

	CFDA Number	Amount
Federal Revenues report in the Statement of Revenues, Expenditures and Change in Fund Balances		\$ 5,258,737

Commodities	10.555	83,468
Total Schedule of Expenditures of Federal Awards		<u>\$ 4,111,871</u>

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Sections 46200 through 46206.

Districts must maintain their instructional minutes at the 1986-87 requirements, as required by *Education Code* Section 46201.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2014

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures and Changes in Fund Balances is included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

INDEPENDENT AUDITOR'S REPORTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Governing Board
Fremont Union High School District
Sunnyvale, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fremont Union High School District (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Fremont Union High School District's basic financial statements, and have issued our report thereon dated December 1, 2014.

Change in Accounting Principles

As discussed in Note 1 to the financial statements, the District has adopted the provision of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Fremont Union High School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fremont Union High School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Fremont Union High School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

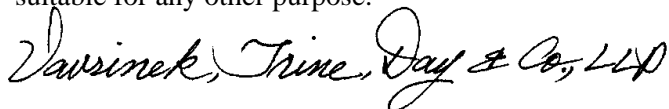

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Fremont Union High School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR
EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

Governing Board
Fremont Union High School District
Sunnyvale, California

Report on Compliance for Each Major Federal Program

We have audited Fremont Union High School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Fremont Union High School District's (the District) major Federal programs for the year ended June 30, 2014. Fremont Union High School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Fremont Union High School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about Fremont Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Fremont Union High School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Fremont Union High School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of Fremont Union High School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Fremont Union High School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Fremont Union High School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Governing Board
Fremont Union High School District
Sunnyvale, California

Report on State Compliance

We have audited Fremont Union High School District's compliance with the types of compliance requirements as identified in the *Standards and Procedures for Audit of California K-12 Local Educational Agencies 2013-2014* that could have a direct and material effect on each of the Fremont Union High School District's State government programs as noted below for the year ended June 30, 2014.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its State's programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance of each of the Fremont Union High School District's State programs based on our audit of the types of compliance requirements referred to above. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2013-2014*. These standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the applicable government programs noted below. An audit includes examining, on a test basis, evidence about Fremont Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. Our audit does not provide a legal determination of Fremont Union High School District's compliance with those requirements.

Unmodified Opinion on Each of the listed below Programs

In our opinion, Fremont Union High School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the government programs noted below that were audited for the year ended June 30, 2014.

In connection with the audit referred to above, we selected and tested transactions and records to determine the Fremont Union High School District's compliance with the State laws and regulations applicable to the following items:
