INDEPENDENT AUDITOR'S REPORT

Governing Board
Fremont Union High School District
Sunnyvale, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Fremont Union High School District (District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2016-2017 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Fremont Union High School District, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Change in Accounting Principles

As discussed in Note 1 to the financial statements, in 2017, the District adopted new accounting guidance, GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the other supplementary information as listed on the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards and other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information including the Schedule of Expenditures of Federal Awards and other supplemental information, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2017, on our consideration of the Fremont Union High School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Fremont Union High School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Fremont Union High School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

This section of Fremont Union High School District's (FUHSD) annual financial report presents management's discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2017. Please read it in conjunction with the District's financial statements, which immediately follow this section. Comparative analyses are presented in the tables that follow:

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the Fremont Union High School District (the District) using the integrated approach as prescribed by GASB Statement Number 34.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting and include the governmental activities. These statements include all assets of the District (including capital assets) as well as all liabilities (including long-term debt). Additionally, certain eliminations have occurred as prescribed by the statement in regards to interfund activity, payables and receivables.

The *Fund Financial Statements* include statements for each of the three categories of activities: governmental, proprietary, and fiduciary.

The *Governmental Activities* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

The *Fiduciary Activities* are prepared using the economic resources measurement focus and the accrual basis of accounting.

Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach.

The financial statements also include notes that explain some of the information in the statements and provide detailed data. The statements are followed by a section of required supplementary budget information that further explains and supports the financial statements.

The Primary unit of the government is the Fremont Union High School District.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2017

FINANCIAL HIGHLIGHTS OF THE PAST YEAR

The economy has improved. Much of the state's education policy now revolves around the Local Control Funding Formula (LCFF) and the Local Control Accountability Plan (LCAP).

The District continues to rely upon the \$5.2 million received annually from the parcel tax that was originally approved by the voters in November 2004. In May of 2010, District voters renewed the parcel tax for a period of six years. The Parcel Tax was again renewed on November 4, 2014 for an additional six years, commencing July 1, 2016. In accordance with the ballot language, the funds are used to preserve core academic classes and retain experienced teachers. The District has been careful to track the particular programs funded through parcel tax revenues. Exemptions are offered to senior citizens and disabled.

On November 4, 2014 voters also approved a Proposition 39 bond known as Measure K. In June 2017, the District issued the second series of bonds under the 2014 Measure K bond authorization. The par amount of the Series 2017A and 2017B bonds was \$113,080,000 and \$31,170,000, respectively. A portion of Series 2017A bonds refunded a portion of the outstanding General Obligation Bonds, Election of 2008, Series 2008, and a portion of the outstanding General Obligation Bonds, Election of 2008, Series 2011A. The refunding generated approximately \$6.1 million in present value savings. The Series 2017B bonds were issued as Green Bonds to fund Green Projects. The District has a long-standing commitment to sustainability and green design in its operations and facilities. The District was one of the first California school districts to issue green bonds.

As required by the Education Code of the State and the 2008 Measure B and 2014 Measure K bond authorizations, the District has established a Citizens' Oversight Committee to review the District's expenditure of bond proceeds and its progress in completing the projects specified in the measure, and to make periodic reports to the public in order to ensure that bond funds are spent only for authorized purposes. At their January 20, 2015 meeting, the Board combined the Measure B and Measure K oversight committees and incorporated responsibility for oversight of the 2014 Measure J parcel tax into one committee named "Fremont Union High School District's Bond and Parcel Tax Citizens' Oversight Committee". The committee is comprised of community members representing the business community within the District, senior citizens organization, taxpayers organization, parent or guardian of a child enrolled in the District, parent or guardian of a child enrolled in the District who is active in a parent-teacher organization and the public at large. Members are appointed for two year terms.

The District's residency verification program continued in 2016-17 as the District remains committed to this effort. The program now contains a full time investigator and two part time investigators along with a manager and clerical support positions. Enrollment continues to escalate, topping 10 thousand this year, making the residency efforts even more important. Though all of our schools have seen increases the greatest impact has been at Cupertino, Homestead and Fremont High Schools. Each of these schools are projected to have enrollment of over 2,500 in the next six years.

The relationship between all of our bargaining groups continues to be collaborative and positive. This includes our Classified Union – CSEA, our Certificated Union – FEA, and our newest bargaining group AFT which represents our Adult and Community Education employees.

2016-17 marked the fourth consecutive year that each bargaining group participating in the Revenue Sharing Process saw positive returns.

FREMONT UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2017

The District established a new fund in 2016-2017, Fund 19 Foundation Special Revenue Fund. This Fund is for a scholarship fund that was created in the name of Carolyn Musso Ryan (FHS Class of 1936). After the passing of Ms. Musso Ryan, the District learned that she left money in her Trust for college scholarships. She had been donating \$4,000 a year for many years for scholarships to college bound students. She also made the district the beneficiary of her life insurance policy.

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Position and the Statement of Activities

The *Statement of Net Position* and the *Statement of Activities* report information about the District as a whole and about its activities. These statements include all assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in it. Net position is the difference between assets and liabilities, and is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is shown in the District's operating results. Since the Board's responsibility is to provide services to students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of education and the safety of our schools will be important components in this evaluation.

In the *Statement of Net Position* and the *Statement of Activities*, we include the District activities as follows:

Governmental activities - All of the District's services are reported in this category. This includes the education of kindergarten through twelfth grade students, adult education students, the operation of child development activities, and the on-going effort to improve and maintain buildings and sites. Property taxes, state income taxes, user fees, interest income, Federal, state, and local grants, as well as general obligation bonds, finance these activities.

FREMONT UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2017

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. and California Departments of Education.

Governmental funds - Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences in results between the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

Proprietary funds - When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the *Statement of Net Position* and the *Statement of Revenues, Expenses and Changes in Fund Net Position*. We use internal service funds (a type of proprietary funds) to report activities that provide supplies and services for the District's other programs and activities - such as the District's Self-Insurance Fund. The internal service funds are reported with governmental activities in the government-wide financial statements.

THE DISTRICT AS TRUSTEE

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for funds held on behalf of others, such as the funds for associated student body activities. The District's fiduciary activities are reported in the *Statements of Fiduciary Net Position*.

These activities are excluded from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

MANAGEMENT’S DISCUSSION AND ANALYSIS JUNE 30, 2017

THE DISTRICT AS A WHOLE

Net Position

The District’s net position was \$62.95 million for the fiscal year ended June 30, 2017. Of this amount, \$58.92 million deficit was unrestricted. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board’s ability to use the net position for day-to-day operations. The analysis below focuses on net position (Table 1) and the change in net position (Table 2) of the District’s governmental activities.

TABLE 1

(Amounts in millions)	<u>2016</u>	<u>2017</u>	<u>CHANGE</u>
Current and other assets	\$ 210.54	\$ 307.41	\$ 96.87

Total Net Position	<u>\$ 57.54</u>	<u>\$ 62.95</u>	<u>\$ 5.41</u>

* As restated due to implementation of GASB 74 and 75.

The \$53.11 million and negative \$112.03 million in unrestricted net position of governmental activities represents the accumulated results of all past years’ operations. It means that if the District had to pay off all of its bills today including all of its non-capital liabilities (compensated absences and pension liability as examples), there would be \$62.95 million in deficit. The total unrestricted deficit amount of \$58.92 million is the result of adaption of GASB statement No. 68, *Accounting and Financial Reporting for Pension*, by the District in the current year. Though listed as unrestricted for purposes of this report, the \$53.11 million is committed or assigned to various programs of the District.

Governmental Activities

As reported in the Statement of Activities on page 16 the cost of all governmental activities this year was \$185.04 million. However, the amount that the taxpayers ultimately financed for these activities through local taxes was \$153.03 million because the cost was paid by those who benefited from the programs or by other governments and organizations who subsidized certain programs with grants and contributions (\$12.12 million). The District paid for the remaining “public benefit” portion of our governmental activities with \$25.30 million in state revenue limit sources, State funds and with other revenues, such as interest and general entitlements.

MANAGEMENT’S DISCUSSION AND ANALYSIS

Table 3 below presents the net cost of each of the District’s largest functions. As discussed above, net cost shows the financial burden that was placed on the District’s taxpayers by each of these functions. Providing this information allows citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Other General Administration activities include fiscal services, personnel services, and central support services. This category includes attendance recording and reporting activities performed at the District level. This category also includes all other costs of property or general liability insurance not charged to a specific function. In addition, the costs of assistant superintendents for instruction or equivalent positions having first-line responsibility for instructional administration and for participation in district/county policy may be charged as follows:

- 50 percent to Instructional Supervision and Administration (Function 2100).
- 50 percent to Other General Administration (Function 7200).

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2017, the District had \$389.29 million in a broad range of capital assets, including land, buildings, and furniture and equipment. This amount represents a net increase (including additions, depreciation and disposal) of \$18.72 million from last year.

TABLE 4

(Amounts in millions)	Governmental Activities

Less Accumulated Depreciation	(70.39)	(80.37)	(9.98)
Totals	\$ 370.57	\$ 389.29	\$ 18.72

This year’s additions included school modernization of \$27.95 million, and equipment of \$0.75 million. Several capital projects are planned for completion in the 2016-2017 year. More information about our capital assets is presented in Note 4 to the financial statements.

Long-Term Obligations

At the end of this year, the District had \$517.56 million in long-term debt outstanding versus \$413.64 million last year, an increase of 25.12 percent.

TABLE 5

(Amounts in millions)	Governmental Activities		
	2016	2017	CHANGE
General obligation bonds and premiums	\$ 398.55	\$ 500.27	\$ 101.72

Totals	\$ 413.64	\$ 517.56	\$ 103.92

* As restated due to implementation of GASB 74 and 75.

The District’s general obligation bond rating is Aaa (based on Moody’s Investor Services) and AAA (based on Standard & Poor’s). The State limits the amount of general obligation debt that the District can issue. The District’s outstanding general obligation bond debt of \$500.27 million is below this limit.

FREMONT UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2017

Other obligations include compensated absences payable. More detailed information regarding our long-term liabilities is presented in Note 15 of the financial statements.

The District has an estimated liability of \$15.81 million for OPEB (other post-employment benefits). During fiscal year 2006-2007 the District established an irrevocable trust with American United Life that is administered by MidAmerica to fund this liability. The trust had a restricted fund balance of \$7.30 million at June 30, 2017. The formation of this irrevocable trust protects the funds set aside for retiree benefits and was an important element to the District being an early adopter of GASB 45, implementing the requirements three years ahead of schedule. During fiscal year 2016-2017, the District adopted GASB 74, and as the result, restated the liability for OPEB at June 30, 2016 from \$12.89 to \$13.54.

Net Pension Liability (NPL)

GASB Statements No. 68 and No. 71 introduce new requirements for accrual-basis recognition by state and local governments of employer costs and obligations for pensions. Under the new accounting standards, if the present value of benefits earned by all employees participating in the CalSTRS and CalPERS pension plan exceeds the resources accumulated by the pension plan to benefits, LEAs must now report in their government wide financial statements their proportionate share of the plan's net pension liability. At present, both CalSTRS and CalPERS have a net pension liability. The district implemented GASB Statement No. 68 and No. 71 for the fiscal year ended June 30, 2015. (See Note 14 to the accompanying financial statements).

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's 2017-2018 Budget

District Administration is projecting that its financial position will improve for the 2017-18 Budget. The State enacted the Local Control Funding Formula (LCFF) to replace revenue limits and most categorical programs, commencing in 2017-18. This is the most sweeping reform of the state's school finance system since the enactment of Senate Bill 90 in the early 1970's, the Legislature's response to the landmark Serrano court decision.

Based upon our most recent demographic report, District enrollment is supposed to increase by a total of 20 students in the next 3 years. Long term projections show a gradual decrease in enrollment from 2021-2025. However, the continued escalating costs of housing and development in our District, long term projections are difficult to assess.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2017

Total Net Change in Fund Balances - Governmental Funds **\$ 89,528,505**
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

Capital outlay to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which capital outlays exceeds depreciation in the period.

Capital outlays	28,698,893
Depreciation expense	(9,971,100)
Net Expense Adjustment	<u>18,727,793</u>

Deferred refunding finance charge is an expense on the statement of activities but is not recorded on the governmental funds. 4,657,097

In the statement of activities, certain operating expenses, such as compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). Vacation earned was less than the amounts used. 68,800

The underfunded portion of the Annual Required Contribution (ARC) of the other postemployment benefits is not recorded in the governmental funds. In the statement of activities, the underfunded portion of the ARC is recognized as expenses. (2,263,623)

In the governmental funds, pension costs are based on employer contributions made to pension plans during the year. However, in the statement of activities, pension expense is the net effect of all changes in the deferred outflows, deferred inflows and net pension liability during the year. (3,968,251)

Proceeds and premium received from sale of general obligation bonds, is a revenue source in the governmental funds, but it increases long-term liabilities in the statement of net position and does not affect the statement of activities. (14,031,788)

The accompanying notes are an integral part of these financial statements.

Amortization of bond premiums reduce long-term obligations in the statement of net position and is recorded in the statement of activities as revenue, but does not affect the governmental funds.	1,580,658
Proceeds received from issuance of bonds are revenues in the governmental funds, but increase long-term obligations in the statement of net position and does not affect the statement of activities.	(144,250,000)
Payment of principal on long-term obligations is an expenditure in the governmental funds, but it reduces long-term obligations in the statement of net position and does not affect the statement of activities.	55,290,000
Accreted interest is not an expenditure in the governmental funds, but it increases the long-term liabilities in the statement of net position and is reflected as additional interest expense in the statement of activities.	(307,288)
Interest on long-term obligations is recorded as an expenditure in the funds when it is due; however, in the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due.	794,532
An internal service fund is used by the District's management to charge the costs of the self-insurance program to the individual funds. The net income of the Internal Service fund is reported with governmental activities.	187,249

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Fremont Union High School District was organized in 1925 under the laws of the State of California. The District operates under a locally elected five-member Board form of government and provides educational services to grades 9-12 as mandated by the State and Federal agencies. The District operates five high schools, one alternative high school, one adult, and one independent study school.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Fremont Union High School District, this includes general operations, food service, and student related activities of the District.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into three broad fund categories: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for and report all financial resources not accounted for reported in another fund.

Building Fund The Building Fund exists primarily to account separately for proceeds from sale of bonds and acquisition of major governmental capital facilities and buildings.

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used to account for the accumulation of resources for, and the repayment of, district bonds, interest, and related costs.

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue Funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to expenditures for specified purposes and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

Adult Education Fund The Adult Education Fund is used to account separately for Federal, State, and local revenues for adult education programs and is to be expended for adult education purposes only, except, for State revenues which, as a result of Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4), may be used for any educational purpose.

Cafeteria Fund The Cafeteria Fund is used to account separately for Federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

Deferred Maintenance Fund The Deferred Maintenance Fund is used to account separately for revenues that are restricted or committed for deferred maintenance purposes (*Education Code* Section 17582).

Special Reserve Foundation Fund The Special Reserve Foundation Fund is used to account resources received from gifts or bequests pursuant to *Education Code* Section 41031 under which both earnings and principal may be used for purposes that support the LEA's own programs and where there is a formal trust agreement with the donor.

Capital Project Funds The Capital Project funds are used to account for financial resources that are restricted, committed, or assigned to the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approving a development (*Education Code* Sections 17620-17626). Expenditures are restricted to the purposes specified in *Government Code* Sections 65970-65981 or to the items specified in agreements with the developer (*Government Code* Section 66006).

County School Facilities Fund The County School Facilities Fund is established pursuant to *Education Code* Section 17070.43 to receive apportionments from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), the 2004 State School Facilities Fund (Proposition 55), or the 2006 State Schools Facilities Fund (Proposition 1D) authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code* Section 17070 et seq.).

Proprietary Funds Proprietary funds are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which a fee is charged to external users or to other organizational units of the local education agency, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting and are classified as enterprise or internal service.

Internal Service Fund Internal service funds may be used to account for goods or services provided to other funds of the District on a cost reimbursement basis. The District operates a workers' compensation, dental, vision, and property and liability programs that are accounted for in an internal service fund.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

Fiduciary Funds Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the District's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Trust funds are used to account for the assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore, not available to support the District's own programs. The District's trust funds include the Retiree Benefits fund. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. The District's trust fund accounts for contribution and payments related to retiree benefit activities and agency fund accounts for student body activities (ASB).

Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues of the District and for each governmental function, and exclude fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the Statement of Activities, except for depreciation. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net position should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities result from special revenue funds and the restrictions on their net asset use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements.

Governmental Funds All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

Proprietary Funds Proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net position. The statement of changes in fund net position presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. To achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned Revenue Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Certain grants received before the eligibility requirements are met are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the government-wide statements.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments held at June 30, 2017, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county are determined by the program sponsor.

Prepaid Expenditures

Prepaid expenditures (expenses) represent amounts paid in advance of receiving goods or services. The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditures in the benefiting period.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the weighted average basis. The costs of inventory items are recorded as expenditures in the governmental funds and expenses in the proprietary funds when used.

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$10,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost.

Depreciation is computed using the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings and building improvement, 50 years; equipment, 5 to 15 years.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated within the governmental funds and governmental activities.

Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide statement of net position. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the governmental fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and other long-term obligations are recognized as liabilities in the governmental fund financial statements when due.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

Debt Issuance Costs, Premiums and Discounts

In the government-wide financial statements and in the proprietary fund type financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Debt premiums and discounts, as well as issuance costs, related to prepaid insurance costs are amortized over the life of the bonds using the straight-line method.

In governmental fund financial statements, debt premiums and discounts, as well as debt issuance costs are recognized in the current period. The face amount of the debt is recorded as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for deferred charges on refunding of debt and for pension related items.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for pension related items.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

Fund Balances – Governmental Funds

As of June 30, 2017, fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws of regulations of other governments.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

Committed – amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board.

Assigned – amounts that do not meet the criteria to be classified as restricted or committed by that are intended to be used for specific purposes. Under the District’s adopted policy, only the governing board or chief business officer/assistant superintendent of business services may assign amounts for specific purpose.

Unassigned – all other spendable amounts.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally, unassigned funds as needed, unless, the governing board has provided otherwise in its commitment or assignment actions.

Minimum Fund Balance Policy

In fiscal year 2016-2017, the governing board adopted a minimum fund balance policy for the General Fund in compliance with GASB 54 to establish fund balance policies in order to protect the district against revenue shortfalls or unpredicted one-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of committed and unassigned amounts equal to no less than 10 percent of General Fund expenditures and other financing uses. At June 30, 2017, \$10,733,927 and \$4,672,725 of the Fund balance for the General Fund was reported as amounts committed and unassigned, respectively, and in total \$15,406,652 was held for economic uncertainties.

Net Position

Net position represents the difference between assets and liabilities. Net position net of investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are primarily interfund insurance premiums. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

Interfund Activity

Transfers between governmental and business-type activities in the government-wide financial statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental column of the statement of activities.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

The budgetary process is prescribed by provisions of the California *Education Code* and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1st of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for.

Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Santa Clara bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

New Accounting Pronouncements Effective This Fiscal Year

GASB Statement No. 74 – In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The objective of the Statement is to address the financial reports of defined benefit OPEB plans that are administered through trusts that meet specified criteria. The Statement requires more extensive note disclosures and RSI related to the measurement of the OPEB liabilities for which assets have been accumulated. The Statement is effective for periods beginning after June 15, 2016, or the fiscal year 2016-17. See Note 15 and 19 for impact on the financial statements of the District.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

GASB Statement No. 75 – In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. The objective of the Statement is to replace the requirements of GASB Statement No. 45. In addition, the Statement requires governments to report a liability on the face of the financial statements for the OPEB provided and requires governments to present more extensive note disclosures and required supplementary information about their OPEB liabilities. The Statement is effective for the periods beginning June 15, 2017, or the fiscal year 2017-18. The District has early implemented this statement. Implementation of the provisions resulted in \$648,922 prior period adjustment. See Note 15 and 19 for more details.

GASB Statement No. 77 – In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures*. The Statement requires state and local governments to disclose information about tax abatement agreements. The Statement is effective for the periods beginning after December 15, 2015, or the fiscal year 2016-17. See Note 16 for impact on the financial statements of the District.

GASB Statement No. 82 – In March 2016, the GASB issued Statement No. 82, *Pension Issues - An Amendment of GASB Statements No. 67, No. 68, and No. 73*. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68*. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

The District has implemented the provisions of this Statement as of June 30, 2017, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017.

New Accounting Pronouncements Effective in Future Fiscal Years

GASB Statement No. 81 – In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The District has not determined the effect of the statement.

GASB Statement No. 83 – In November 2016, GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital asset should recognize a liability based on the guidance in this Statement. This Statement also requires disclosure of information about the nature of a government's ARO, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018, or the 2018-19 fiscal year. The District has not determined the effect of the statement.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

GASB Statement No. 84 – In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018, or the 2019-20 fiscal year. The District has not determined the effect of the statement.

GASB Statement No. 85 – In March 2017, GASB issued Statement No. 85, *Omnibus 2017*. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits). The Statement is effective for the reporting periods beginning after June 15, 2017, or 2017-18 fiscal year. The District has not determined the effect of the statement.

GASB Statement No. 86 – In May 2017, GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*. The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The Statement is effective for the reporting periods beginning after June 15, 2017, or 2017-18 fiscal year. The District has not determined the effect of the statement.

GASB Statement No. 87 – In June 2017, GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The Statement is effective for the reporting periods beginning after December 15, 2019, or 2020-21 fiscal year. The District has not determined the effect of the statement.

Proprietary fund	635,048
Fiduciary funds	9,618,865
Total Deposits and Investments	<u>\$ 205,942,784</u>

Deposits and investments as of June 30, 2017, consist of the following:

Cash on hand and in banks	\$ 1,922,074
Cash in revolving	16,127
Investments	204,004,583
Total Deposits and Investments	<u>\$ 205,942,784</u>

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The District monitors the interest rate risk inherent in its portfolio by measuring the average maturity of its portfolio. Information about the weighted average maturity of the District's portfolio is presented in the following schedule:

Investment Type	Costs	Fair Value	Average Maturity in Days
County Pool	\$ 196,389,501	\$ 195,934,622	528
Annuities for Retiree Benefit Trust Fund	7,024,217	7,024,217	N/A
Certificates of Deposits	590,865	590,865	334
Total	\$ 204,004,583	\$ 203,549,704	

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The annuity with ING ReliaStar Group is a fixed investment product with ING that is principal protected and guarantees a 3 percent minimum rate of return. ReliaStar Life Insurance Company has a rating from Standard and Poor's of AA.

NOTES TO FINANCIAL STATEMENTS

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2017, approximately \$1,241,136 of the District's bank balances of \$1,922,074 was exposed to custodial credit risk because it was uninsured but collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

Custodial Credit Risk - Investments

This is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Of the investment in mutual fund of \$7,024,217 the District has a custodial credit risk exposure of \$7,024,217 because the related securities are uninsured, unregistered and held by the brokerage firm which is also the counterparty for these securities. The District does not have a policy limiting the amount of securities that can be held by counterparties.

NOTE 3 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles (GAAP) provide guidance on how fair value should be determined when financial statement elements are required to be measured at fair value. Valuation techniques are ranked in three levels depending on the degree of objectivity of the inputs used with each level:

- Level 1 inputs – quoted prices in active markets for identical assets.
- Level 2 inputs – quoted prices in active or inactive for the same or similar assets.
- Level 3 inputs – estimates using the best information available when there is little or no market.

Uncategorized - Investments in the County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

All assets have been valued using a market approach, with quoted market prices. The District's fair value measurements are as follows at June 30, 2017:

Investment Type	Fair Value	Fair Value Measurements Using			Uncategorized
		Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	
County Pool	\$ 195,934,622	\$ -	\$ -	\$ -	\$ 195,934,622

Advance Refunding

On June 20, 2017, the District issued \$44.25 million in General Obligation Bonds with an average interest rate ranging from two to five percent to advance refund \$21.1 million of outstanding series 2008 with interest rate ranging from four to five percent, and \$24.295 million of outstanding series 2011A with interest rate of 5.375 percent (Refunded Bonds). The net proceeds of \$50.66 million (including \$6.75 million premium and after payment of \$334,351 in issuance costs) were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the Refunded Bonds. As a result, the Refunded Bonds are considered to be defeased and the liability for those bonds has been removed from the long-term obligations category of Statement of Net Position.

The District advance refunded the Refunded Bonds to reduce its total debt service payments over the next 28 years by \$8.39 million and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$6.11 million.

Other Postemployment Benefit (OPEB) Obligation

The District’s contributions made during the year were \$962,409. Service cost was \$2,424,520, and the interest on the net OPEB obligation to the annual required contribution was 917,585, which resulted in an increase to the net OPEB obligation of \$2,350,905. As of June 30, 2017, the net OPEB obligation was \$15,807,194. See Note 15 for additional information regarding the OPEB obligation and the postemployment benefits plan. See Note 19 for restatement of OPEB obligation at June 30, 2016 as result of adoption of GASB 74.

NOTE 12 - LEASE REVENUES

The District has leased properties built in the 1950's where the total construction costs have been fully depreciated for a number of years. Lease agreements have been entered into with various lessees for terms that exceed one year. None of the agreements contain purchase options. All of the agreements contain a termination clause providing for cancellation after a specified number of days written notice to lessors, but is unlikely that the District will cancel any of the agreements prior to their expiration date. The future minimum lease revenues expected to be received under these agreements are as follows:

Year Ending June 30,	Lease Revenues

NOTE 13 - RISK MANAGEMENT

Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year ending June 30, 2017, the District participated in the Northern California Regional Liability Excess Fund (ReLiEF) for excess property and liability coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

For fiscal year 2017, the District participated in the Santa Clara County Schools Insurance Group for the workers' compensation coverage.

Claims Liabilities

The District records an estimated liability for Workers' Compensation claims filed prior to March 1, 1996. Claims liabilities are based on estimates of the ultimate cost of reported claims (including future claim adjustment expenses) and estimates for claims incurred, but not reported based on historical experience for some self-insured programs, such as dental, vision and property and liability.

NOTE 14 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2017 the District reported net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

Pension Plan	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense
CalSTRS	\$ 96,257,466	\$ 17,314,745	\$ 2,348,091	\$ 9,731,615

The details of each plan are as follows:

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2015, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publically available reports that can be found on the CalSTRS website under Publications at: www.calstrs.com/member-publications.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP. The STRP provisions and benefits in effect at June 30, 2017, are summarized as follows:

The STRP provisions and benefits in effect at June 30, 2017, are summarized as follows:

	STRP Defined Benefit Program

Contributions

Required member, District and State of California contributions rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven year period. The contribution rates for each plan for the year ended June 30, 2017, are presented above and the District's total contributions were \$7,918,756.

JUNE 30, 2017

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District were as follows:

Total net pension liability, including State share:

District's proportionate share of net pension liability	\$ 96,257,466
State's proportionate share of the net pension liability associated with the District	54,797,658
Total	<u>\$ 151,055,124</u>

The net pension liability was measured as of June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The District's proportionate share for the measurement period June 30, 2016 and June 30, 2015, respectively was 0.11900 percent and 0.11867 percent, resulting in a net increase in the proportionate share of 0.00033 percent.

For the year ended June 30, 2017, the District recognized pension expense of \$9,731,615. In addition, the District recognized pension expense and revenue of \$5,296,770 for support provided by the State. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 7,918,756	\$ -
Net change in proportionate share of net pension liability	1,743,567	-
Difference between projected and actual earnings	7,652,422	-
Differences between expected and actual experience in the measurement of the total pension liability	-	2,348,091
Total	<u>\$ 17,314,745</u>	<u>\$ 2,348,091</u>

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows of resources related to the difference between projected and actual earnings on pension plan investments are amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows of Resources
2018	\$ 166,951
2019	166,952
2020	4,448,379
2021	2,870,140
Total	<u>\$ 7,652,422</u>

The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 7 years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Inflows of Resources
2018	\$ 87,085
2019	87,085
2020	87,085
2021	87,085
2022	87,087
Thereafter	169,097
Total	<u>\$ 604,524</u>

Actuarial Methods and Assumptions

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The financial reporting actuarial valuation as of June 30, 2015, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Experience study	July 1, 2006 through June 30, 2010
Actuarial cost method	Entry age normal
Discount rate	7.60%
Investment rate of return	7.60%
Consumer price inflation	3.00%
Wage growth	3.75%

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on RP2000 series tables adjusted to fit CalSTRS experience.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant. Based on the model for CalSTRS consulting actuary's investment practice, a best estimate range was determined by assuming the portfolio is re-balanced annually and that the annual returns are normally distributed and independent from year to year to develop expected percentiles for the long-term distribution of annualized returns. The assumed asset allocation is based on Teachers' Retirement Board of the California State Teachers' Retirement System (board) policy for target asset allocation in effect on February 2, 2012, the date the current experience study was approved by the board. Best estimates of 10-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-term Expected Real Rate of Return
Global equity	47%	6.30%
Fixed income	12%	0.30%
Real estate	13%	5.20%
Private equity	13%	9.30%
Absolute Return/Risk Mitigating Strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%
	<u>100%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 7.60 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.60 percent) and assuming that contributions, benefit payments and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

California Public Employees Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the School Employer Pool (SEP) under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2015 annual actuarial valuation reports, Schools Pool Actuarial Valuation. These reports and CalPERS audited financial information are publically available reports that can be found on the CalPERS website under Forms and Publications at: <https://www.calpers.ca.gov/page/forms-publications>.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2017, are presented above and the total District contributions were \$3,855,057.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2017, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$42,999,244. The net pension liability was measured as of June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportionate share for the measurement period June 30, 2016 and June 30, 2015, respectively, was percent 0.21772 and 0.21077 percent, resulting in a net increase in the proportionate share of 0.0069 percent.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

Actuarial Methods and Assumptions

Total pension liability for the SEP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The financial reporting actuarial valuation as of June 30, 2015, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Experience study	July 1, 1997 through June 30, 2011
Actuarial cost method	Entry age normal
Discount rate	7.65%
Investment rate of return	7.65%
Consumer price inflation	2.75%
Wage growth	Varies by entry age and service

Mortality assumptions are based on mortality rates resulting from the most recent CalPERS experience study adopted by the CalPERS Board. For purposes of the post-retirement mortality rates, those revised rates include five years of projected ongoing mortality improvement using Scale AA published by the Society of Actuaries.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-term Expected Real Rate of Return
Global equity	51%	5.71%
Global debt securities	20%	2.43%
Inflation assets	6%	3.36%
Private equity	10%	6.95%
Real estate	10%	5.13%
Infrastructure and Forestland	2%	5.09%

Discount Rate

The discount rate used to measure the total pension liability was 7.65 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount rate	Net Pension Liability
1% decrease (6.65%)	\$ 64,155,111
Current discount rate (7.65%)	\$ 42,999,244
1% increase (8.65%)	\$ 25,382,821

Social Security

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use the APPLE Retirement Program as its alternative plan. Contributions made by the District and an employee vest immediately. The District contributes 1.3 percent of an employee's gross earnings. An employee is required to contribute 6.2 percent of his or her gross earnings to the pension plan.

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of \$4,308,598, \$3,702,305, and \$2,796,370, for fiscal years ending June 30, 2017, 2016 and 2015 respectively (8.828 percent of 2016-2017, 7.126 percent of 2015-2016, and 5.541 percent of 2014-2015 annual payrolls). Contributions are no longer appropriated in the annual *Budget Act* for the legislatively mandated benefits to CalPERS. Therefore, there is no on behalf contribution rate for CalPERS. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements.

NOTE 15 - POSTEMPLOYMENT HEALTH CARE PLAN AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION

Certain types of Total OPEB Liability changes are subject to deferral, as are investment gains and losses. To qualify for deferral, gains and losses must be based on GASB 74/75 compliant valuations. Since the District’s prior valuation was performed in accordance with GASB 43/45, it is not possible to calculate compliant gains and losses. Therefore, valuation-based deferred items will not begin until the next valuation.

Plan Description

Plan administration. The Employee Benefit Trust administers the Postemployment Benefits Plan (the "Plan") - a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for the Fremont Union High School District. Management of the Plan is vested in the District’s Governing Board, which consists of five locally elected plan members.

Benefits provided. The Plan provides medical, dental and vision insurance benefits to certain retirees and their dependents or spouses. The groups of employees who are eligible for the Plan are as follows:

	Management ***	Certificated	Classified ***
Benefits provided	Medical, dental and vision	Medical, dental and vision	Medical, dental and vision
Duration of benefits	5 years *	5 years	5 years
Required service	10 years	10 years	10 years
Minimum age	55	55 **	55
Dependent coverage	Yes	Yes	Spouse
District coverage	100%	100%	100%
Annual District Cap	Same as active	Same as active	Same as active

* Certain management employees are entitled to 7 years of District-paid benefits

** or 30 years of service before age 55

*** Management and classified employees who don't qualify for or exhaust these benefits are entitled to minimum benefits pursuant to Government Code Section 22892

Benefits are provided through a third-party insurer, and the full cost of benefits is covered by the *plan*. The District’s Governing Board has the authority to establish and amend the benefit terms as contained within the negotiated labor agreements.

Plan membership. At June 30, 2017, Plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefit payments	\$ 118
Active plan members	979
Total Plan Members	<u>\$ 1,097</u>

FREMONT UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

Contributions. The contribution requirements of plan members and the District are established and may be amended by the District and the Fremont Educators Association (FEA), the local California Service Employees Association (CSEA), and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through the agreements between the District, FEA, CSEA, and the unrepresented groups. For fiscal year 2016-2017, the District contributed \$962,409 to the plan, of which all was used for current premiums. Plan members receiving benefits contributed \$991,200, or approximately 103 percent of the total premiums. The District contributes \$2,000, \$755 and \$1,199 monthly for each FEA, CSEA and FMA member, respectively. Any premiums over the District's contribution are paid by plan members.

Investments

Investment policy. The Plan's policy in regard to the allocation of invested assets is established and may be amended by the District's Governing Board by a majority vote of its members. It is the policy of the District's Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The Plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

Rate of return. For the year ended June 30, 2017, the annual money-weighted rate of return on investments, net of investment expense, was 5.5 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for below asset class included in the target asset allocation as of June 30, 2017, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed income	100%	5.50%

Concentrations. The District invests 100% of its plan assets in the mutual fund.

JUNE 30, 2017

Actuarial Methods and Assumptions

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.75 percent
Salary increases	2.75 percent
Investment rate of return	4.30 percent
Healthcare cost trend rates	4.00 percent

Mortality rates were based on the 2009 CalSTRS Mortality Table and 2014 CalPERS Active Mortality Table for certificated and classified employees, respectively.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of applicable actuarial standards of practice, Fremont Union High School District's actual historical experience, and actuarial experience and training.

Discount rate. The discount rate used to measure the total OPEB liability was 4.3 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the net OPEB liability to changes in the discount rate. The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.3 percent) or 1-percentage-point higher (5.3 percent) than the current discount rate:

	1% Decrease 3.3%	Discount Rate 4.3%	1% Increase 5.3%
Net OPEB liability	<u>\$ 18,338,935</u>	<u>\$ 15,807,194</u>	<u>\$ 13,628,066</u>

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (3 percent) or 1-percentage-point higher (5 percent) than the current healthcare cost trend rates:

NOTE 16 – TAX ABATEMENTS

As of June 30, 2017, the County of Santa Clara provides a tax abatement program through California Land Conservation Act of 1965, commonly referred to as the Williamson Act.

The Williamson Act affects taxing entity's share of the 1% ad valorem tax (property tax). The Williamson Act enables the County to enter into agreement with private landowners for restricting specific parcels of land to agricultural or related open space use for a ten year period. In return, landowners receive property tax assessments which are much lower than normal because they are based upon farming and open space uses as opposed to full market value.

As a result of the Williamson Act, Fremont Union High School District's property tax revenues were reduced by \$131,506 for the year ended June 30, 2017.

NOTE 17 - COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2017.

Litigation

The District is involved in various litigations arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2017.

NOTE 18 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS AND JOINT POWER AUTHORITIES

The District is a member of the Silicon Valley Joint Powers Transportation Agency (SVJPA), the Santa Clara County Schools Insurance Group (SCCSIG), and the Northern California Regional Liability Excess Fund (North CalReLiEF). The relationship between the District, the pools and the JPA’s are such that they are not component units of the District for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are generally available from the respective entities.

The District has appointed one board member to the Governing Board of SVJPA, SCCSIG, and North CalReLiEF. During the year ended June 30, 2017, the District made payments as follows:

Related Entities	Service Payments	Service provided
SVJPA	\$ 2,236,525	Transportation for special education students
SCCSIG	1,187,048	Excess workers' compensation insurance
North CalReLiEF	660,421	Property and liability insurance

The General Fund balance has decreased by \$5,399,842 over the past two years. The fiscal year 2017-2018 budget projects a decrease of \$854,855 (3 percent). For a district this size, the State recommends available reserves of at least 3 percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating surplus in two of the past three years but anticipates incurring an operating deficit during the 2017-2018 fiscal year. Total long-term obligations have increased by \$141,718,598 over the past two years due to issuance of \$144 million general obligation bonds.

Average daily attendance has increased by 71 over the past two years. An increase of 145 ADA is anticipated during fiscal year 2017-2018.

¹ Budget 2018 is included for analytical purposes only and has not been subjected to audit.

² Available reserves consist of all unassigned fund of the General Fund, and does not include the \$10,733,927 and \$9,277,101 in committed fund balance for additional reserve for economic uncertainty for 2016-2017 and 2015-2016, respectively.

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2017

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying schedule of expenditures of Federal awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The District has not elected to use the ten percent de minimis cost rate as covered in Section 200.414 Indirect (F&A) costs of the Uniform Guidance.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenditures, and Changes in Fund Balance and the related expenditures reported on the Schedule of Expenditures of Federal Awards.

	CFDA Number	Amount
Federal Revenues report in the Statement of Revenues, Expenditures and Changes in Fund Balances		\$ 4,793,953
Federal interest subsidy from Build America Bonds Act Commodities		(1,034,262) 113,986
Total Schedule of Expenditures of Federal Awards		<u>\$ 3,873,677</u>

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Sections 46200 through 46206.

Districts must maintain their instructional minutes at the 1986-87 requirements, as required by *Education Code* Section 46201.

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2017

Reconciliation of Unaudited Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures and Changes in Fund Balances is included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

INDEPENDENT AUDITOR'S REPORTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Governing Board
Fremont Union High School District
Sunnyvale, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fremont Union High School District (District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise Fremont Union High School District's basic financial statements, and have issued our report thereon dated December 30, 2017.

Emphasis of Matter - Change in Accounting Principles

As discussed in Note 15 to the financial statements, in 2017, the District adopted new accounting guidance, GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* and GASB 75, *Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pensions*. Our opinion is not modified with respect to this matter.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Fremont Union High School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fremont Union High School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Fremont Union High School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Fremont Union High School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Governing Board
Fremont Union High School District
Sunnyvale, California

Report on Compliance for Each Major Federal Program

We have audited Fremont Union High School District's compliance with the types of compliance requirement described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Fremont Union High School District's (the District) major Federal programs for the year ended June 30, 2017. Fremont Union High School District's major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Fremont Union High School District's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about Fremont Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program. However, our audit does not provide a legal determination of Fremont Union High School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Fremont Union High School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2017.

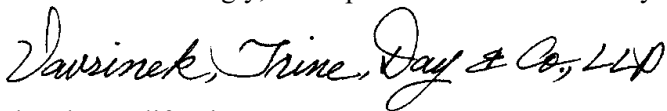

Report on Internal Control Over Compliance

Management of Fremont Union High School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Fremont Union High School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Fremont Union High School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
