

## **Legacy Community Council Meeting February 14, 2018**

Those in attendance: Chadli Bodliy, Becky Larsen, Lisa Day, Katie Frederiksen, Tara Reynolds, Nancy Hammond, Kaylene Spraker, Laurie Coleman, Kelsey Bernards, Candice Prescott, L. Carvel Wilson, Jen Yeager, Vanessa Quan, Melanie Smith, Ryan Mellor, Marla Call

Visitor: Candice Prescott

**TRUST LANDS SPENDING/BUDGET-Chadli Bodliy:** As she has looked over the budget and spending, it looks like we will have \$10,000+ left, which we will need to spend. Possibly spend it on technology and professional training /development. Chadli would like to see that money used for technology, where every 2 teachers would be sharing a set of personal devices for students in their classrooms. Chrome books maybe? These devices would be under our teachers' control, where they can keep them and watch over them; not checked out to go home with kids. Sound systems in rooms breaking down, individual problems within the departments. No need to vote because we aren't reallocating the money from somewhere else. Council decided that extra money would be used for these purposes to supplement the Refresh monies.

### **SIP PROGRAM REVIEW**

**Blended Learning Training- Carv Wilson:** He went to the blended learning conference. Station Rotation allows small group communication almost 10-1 which is more manageable. This is how his room is set up which is really helpful. He can teach a lot more in a lot less time. It's student motivated. It has a written portion. Makes it nice to manage only 10 kids at a time and not everyone at once. They are looking to expand it to other teachers who would like to learn it. He really likes, as a teacher he's not in charge of every aspect of students' learning. They will need new headphones. Posting in Canvas is really easy.

**Math Collaboration Day-Lisa Day:** Math department had their collaboration day in January. it's hard with lack of time and feels like they are always behind. So this collaboration day was so wonderful! The 8<sup>th</sup> grade department spent time to match things up from the standards. They also worked on common assessments and common grading. Format them correctly is important and grading is standard. It would be helpful to have one more day in the spring.

**CTE Collaboration Day-Kelsey Bernards:** December they met. CCA talked about calendar for the rest of the year. They also aligned what they teach with scope and sequence. February 27<sup>th</sup> is the College Career day/Reality Town. They are still looking for volunteers to come and run a booth. Kristy Thomas has it all scheduled out. This is the first year that the 8<sup>th</sup> grade is doing Reality Town.

**Counseling Department -Candice Prescott-** Counseling department gets reviewed every 6 years. Our counseling department passed. They would like to get feedback. they have been doing groups- counseling groups are a small group session 8-10 students that address certain things. Self-esteem, stress management, new student,

power skills group (labeling), overall well-being group. Surveyed students at the beginning of the year, but the numbers of students who are actually in the group are much less than the numbers reflected in the survey. Teachers are able to be trained in mindfulness learning through Davis developmental. A huge need for it. Would it be possible to do this with parents?

**White Ribbon Week-Kaylene Spraker:** the week of February 20-23, Mindy Talbot is over this week. The links for all the videos will be on the weekly newsletter. There will be some lunch time activities on Tuesday and Thursday, short videos shown in classes, Internet safety, Within 6 clicks, could we add the technology addiction maybe next year?

**Legislative Update-Ryan Mellor:**

Natalie Gordon: HB 238 & HB253 they are changing how they are distributing funds.

How trust lands are administered, they won't have to go through as many ?? and stream line it for the administrator.

Senate Bill 87 Put lock out devices on every door, won't comply with fire code, most school shootings happen in the common area not as much a class room, but if the doors are locked usually the shooter moves on.

HB235-Pilot program, forgo the 2<sup>nd</sup> parent teacher conference. The teacher could go by and talk to the parents, what they saw was the difference it made with parents showing up & kids showing up more at school, but they are building a trust.

SB97 It's about tax equalization, defiantly take to our legislature. Right now if you live in a school the biggest businesses are Hill AF or the school district. If passed that means 5 billion more to Davis school district. Distribute equally!

**NEXT MEETING MARCH 14<sup>th</sup>- SIP Planning Day- Media Center- 8:00am-1:00pm**
