

Corinth Mathletics

What is Mathletics?

Mathletics is an opportunity for students who have a passion for math. Students collaborate in teams to solve math problems and build problem solving skills. Students will have the opportunity to compete in the monthly Mathletics Competition.

The Final Contest will be held March 27th, 2019 at the Center for Academic Achievement. First Place teams from the Regional Contest are invited to attend.

Students will be selected to attend the Mathletics competitions. Mathletics is a monthly competition where teams have the opportunity to compete in a math problem solving competition with students from other schools. Corinth can send 9 fourth grade students, 9 fifth grade students, 9 sixth grade students and 9 pre-algebra students to each competition. If there are more students interested than spots, we will have all students attend the practice and then fairly rotate who

attends the competitions. Plan on attending all competitions unless otherwise notified.

Who Can Join?

Any student in 4th and 5th grade can join. 6th Grade will meet separately during the school day.

What Are The Requirements?

- Students who join are expected to attend Math practices and competitions. If you are unable to attend a practice or competition, please email Mrs. Roberts crroberj@smsd.org!
- It is important to attend the practice sessions in order to qualify for the monthly competitions.
- Parents need to provide transportation home from the practice sessions.
- Parents need to provide transportation to and from competitions.
- Students need to bring a **calculator and pencils** each time we meet.

I am so excited for Mathletics! Please feel free to email me with questions.
