### **Digital Citizenship Announcements Week: Information Literacy 9/21/18**

Here are a few words of wisdom regarding digital citizenship. This week, we are focusing on Information Literacy. Information literacy is the ability to identify, find, evaluate, and use information effectively. Evaluating the quality and credibility of a source and giving it credit are information literacy skills.

At Maryville City Schools, we recommend that each person:

Start thinking about how you find information online and what you do with that information. Are you using good online searching strategies to efficiently get to credible information? Are you careful to always give your sources credit? Use these next few weeks to evaluate your information literacy.

### **CGIS Parent Reminders**

- Students in grades 4-7 will be taking our first benchmark assessment of the year over the next two weeks. These benchmark assessments are entitled CASE 21. 4<sup>th</sup> graders will be

assessed in Reading Language Arts and Math while 5<sup>th</sup>, 6<sup>th</sup> and 7<sup>th</sup> graders will be assessed in all subjects. This assessment data will help us drive our instruction for next nine weeks.

- At the end of the school day, please be aware that the office will get very busy. We will not be checking students out after 2:30 pm. Please make sure that if you have an appointment scheduled for your student that you allocate enough time to be in the office prior to 2:30 pm.
