1.
What is itslearning?

Personalized Learning

Anywhere, Anytime Learning (Access)

Individualized Instruction (Rigor)

Holistic, Actionable Data (4D)

Student Voice & Agency

What Blended Learning Looks Like

Students will collaborate with others on group projects.

Students will receive constant feedback and facilitation from their teachers.

Students will have hands on learning experiences.

What Blended Learning Does Not Look Like

- Students do not stare at screens all day.

- Teachers do not work at their desk while students all work independently.

- Students do not have to work in silence all day.

Why do teachers use itslearning?

- Personalize learning through targeted learning experiences

- Teachers have more time to meet with small groups of students and less time lecturing whole class

- https://tinyurl.com/sbisdcribs

Why do students use itslearning?

- Communication

- Prioritize and organize their learning

- Access learning outside of school

2.
Navigating itslearning

Take a Tour as a Student

3.
Key Pieces for Parents

What is most useful for parents?

- Tasks - activities that could be graded including homework (note discussion boards)
- Plans - communication tool between teacher and students with resources and activities
- Calendar - Events that teachers populate for courses, or students can use the calendar feature personally

Questions

Thanks!

Any questions?

Quotations are commonly printed as a means of inspiration and to invoke philosophical thoughts from the reader.

This is a slide title

- Here you have a list of items
- And some text
- But remember not to overload your slides with content

Your audience will listen to you or read the content, but won't do both.

In two or three columns

Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.
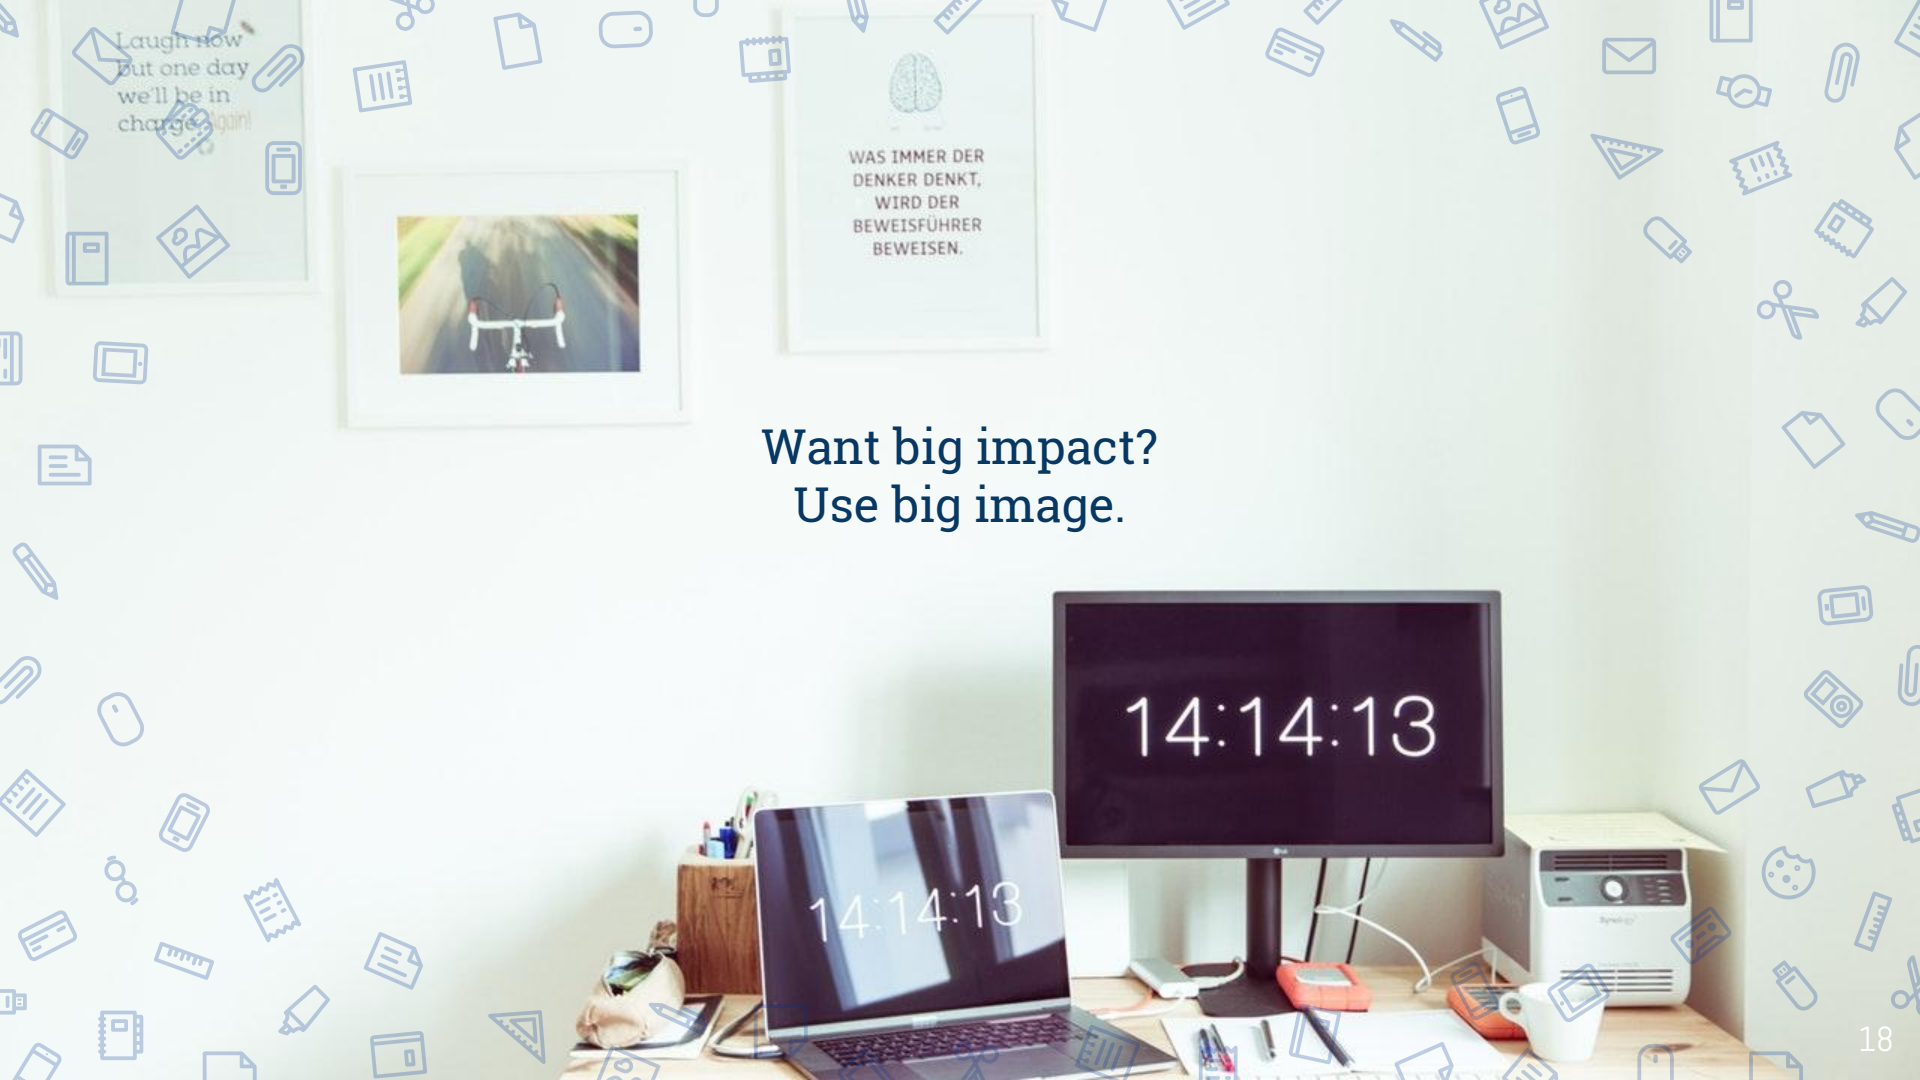

Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.
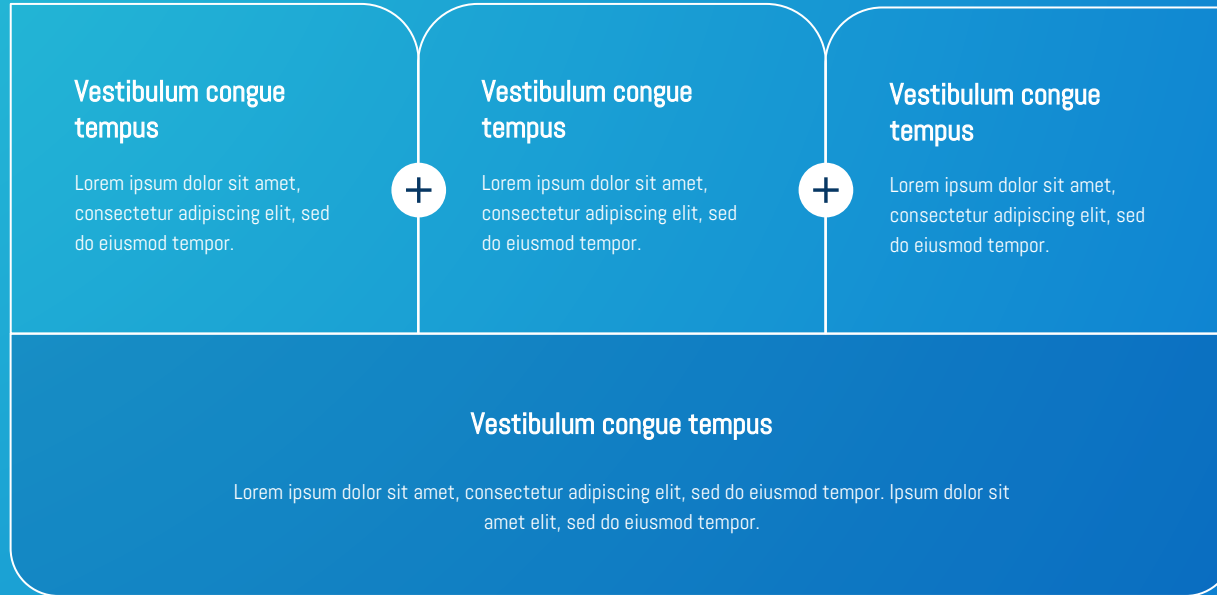

A picture is worth a thousand words

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

Want big impact?
Use big image.

Use diagrams to explain your ideas

Special thanks to all the people who made and released these awesome resources for free:

- Presentation template by <u>SlidesCarnival</u>
- Photographs by <u>Unsplash</u>

Presentation design

This presentation uses the following typographies and colors:

- Titles: Roboto Slab
- Body copy: Abel

You can download the fonts on these pages:

https://www.fontsquirrel.com/fonts/roboto-slab

https://www.fontsquirrel.com/fonts/abel

Teal #2ac7d7 · Sky #0d7fd1 · Indigo #184de2

You don't need to keep this slide in your presentation. It's only here to serve you as a design guide if you need to create new slides or download the fonts to edit the presentation in PowerPoint®
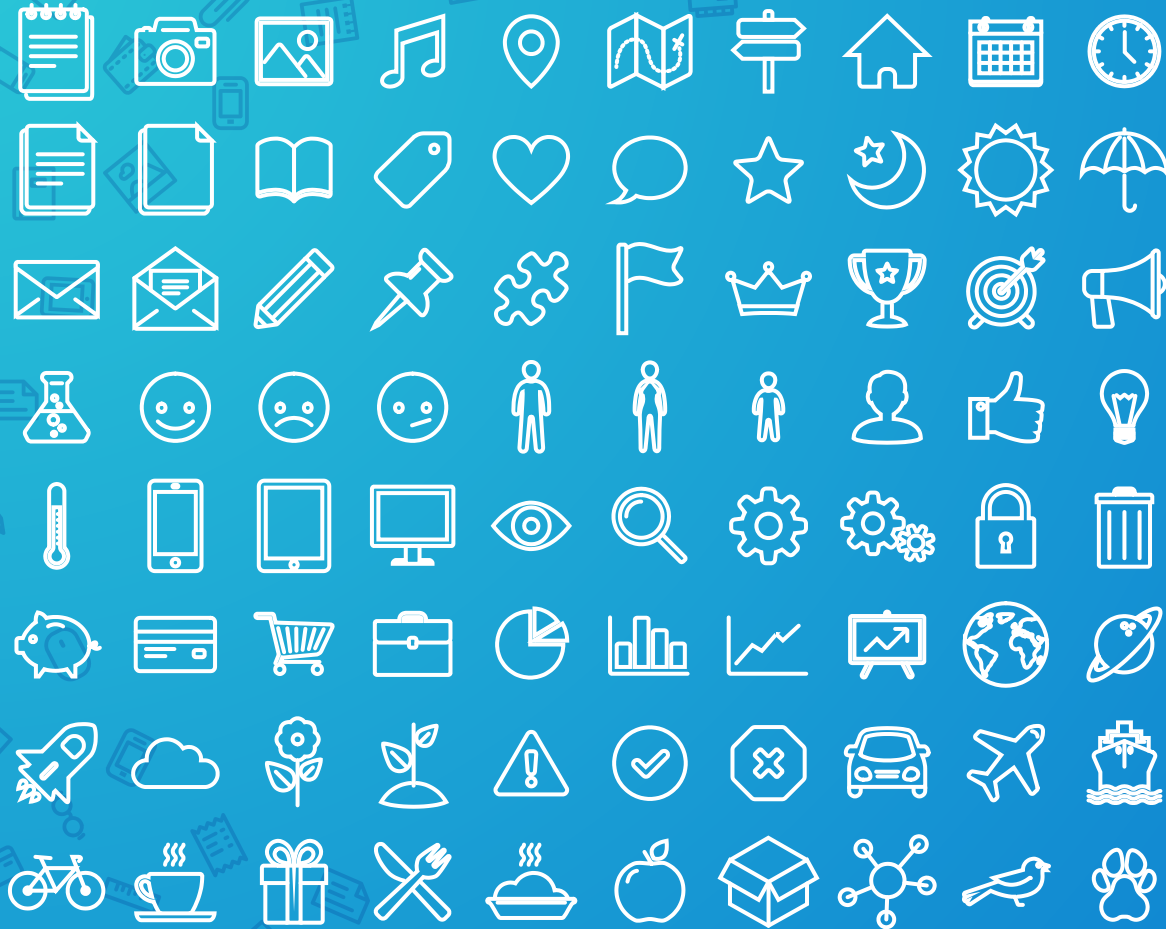

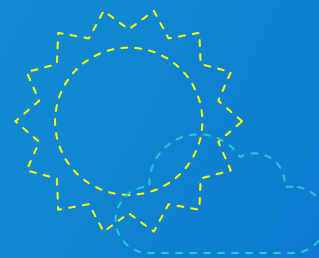

SlidesCarnival icons are editable shapes.

This means that you can:
- Resize them without losing quality.
- Change line color, width and style.

Isn't that nice? :)

Examples:

Now you can use any emoji as an icon!
And of course it resizes without losing quality and you can change the color.

How? Follow Google instructions
https://twitter.com/googledocs/status/730087240156643328

and many more...
