

INTERIOR DESIGN 1

COURSE DESCRIPTION

This course explores the field of interior design through engaging learning activities. Identification and use of the elements and principles of design are emphasized. Other topics are furniture arrangement, floor plan evaluation, space planning and design related careers. Skills learned can be applied to current living environments and future career options.

STRANDS

Demonstrate professional design presentation techniques

Identify the two basic types of design

Identify and explain the basic elements of design or "tools" used to create a design: line, shape, form, space, texture, pattern, light, and color

Identify the terms associated with the color wheel and the major color schemes

Identify and explain the basic principles of design or "rules"/guidelines of design: scale, proportion, balance, rhythm, emphasis/focal point, and harmony

Explain the design and function of interior space

SKILL CERTIFICATION PERFORMANCE OBJECTIVES: Test # 330

Complete FCCLA Step One

Demonstrate proficiency in professional lettering and mounting techniques

Present visual examples of the elements of design and explain each concept in writing

Create a color wheel identifying primary, secondary and tertiary colors

Create tints, tones, and shades

Create or present visual examples of major color schemes

Present visual examples of the principles of design and explain each concept in writing

Label a floor plan with the three living zones, and indicate the functions of each zone

Identify and label common floor plan symbols

Using a floor plan, create a furniture arrangement incorporating principles and elements of design and space planning
