

## **INTERIOR DESIGN 2**

### **COURSE DESCRIPTION**

This course provides students the opportunity to develop skills in applying the elements and principles of design to interiors. Projects are integrated throughout the course to provide applications as the students study: architecture, furniture styles and constructions, surface treatments and backgrounds, design and function of space and lighting.

### **STRANDS**

Demonstrate understanding of the elements and principles of design

Identify architectural features and styles

Understand components of contract documents—a set of plans that a builder uses

Identify and explain various interior surface treatments, backgrounds, and lighting

Distinguish features of selected furniture styles and characteristics of quality furniture

Understand the elements of an appropriate visual presentation

### **SKILL CERTIFICATION PERFORMANCE OBJECTIVES: Test #333**

Complete a project related to architectural styles and features

Draw, draft, or trace a portion of a floor plan

Complete a project related to furniture styles and features

Design a presentation board and description for one or more rooms
