## **Parent Alerts for Low Grades**

At this time, parents are already receiving alerts via email or a phone call for student attendance and lunch balances through our auto alert system. Starting very soon, parents will also receive Low Grade Alerts, as needed. If your child's average in any class falls into the failing range or becomes an F, you will receive an email to notify you of this. This should allow you to have a conversation with your student and, if needed, contact the teacher for support.

## Case 21 Assessments

Students have completed the first Case21 Benchmark for RLA, Math, Science (5-7), and Social Studies (5-7). The Math, Science, and Social Studies tests are based mainly on curriculum already covered. The RLA test covers all the grade level standards. Teachers will be reviewing results with students and using corrective instruction to help with some of the missing skills. If you would like to login and see your student's results, use the following information--- (your student should be able to help you with this process)

## Digital Citizenship Announcements Week: *Privacy and Security* 10/19/18

*Here are a few words of wisdom regarding digital citizenship. This week, we are focusing on Privacy & Security. Password strength is an easy way to keep your information secure on the Internet. At Maryville City Schools, we recommend that each person: Choose passwords that are eight or more characters- a combination of letters, numbers, and symbols; don't include your name or birthday in your password; change passwords every six months; and keep your passwords a secret- even from friends.*

*The information you give out online can impact your life offline. The choices are yours.*

3. We will be holding a poster contest here at Coulter Grove during Red Ribbon Week.
