## TECHNOLOGY/ENGINEERING/DESIGN PROGRAM

### About T/E/D at ND

Designed by Fortune 500 Engineers alongside ND faculty, the Technology/Engineering/Design (T/E/D) Program is a three year program that cultivates the analytical, creative, and process skills required in the engineering profession. Students develops problem-solving abilities through practical learning applications.

**“Technical fields are an exploding area of study and career path for today’s students. Notre Dame’s T/E/D program helps students develop the vital skills necessary for success in any technical field.”**

**MR. PETER SWAN, SCIENCE FACULTY**

#### T/E/D PROGRAM HIGHLIGHTS

ND’s T/E/D program is a **hands-on project intensive** curriculum, with a capstone project in the student’s third year. The coursework cultivates an understanding of the **values of teamwork** in a practical setting, and helps students **develop the leadership** necessary to utilize individual strengths so that the team is more than the sum of its parts. Students will have access to expert guidance in **developing the essential skills** for a future career in a technical field.

#### T/E/D PROGRAM OUTCOMES

Upon completion of the three year program, students will have exposure to a broad range of engineering disciplines and the essential skills required for the profession.

- A Certificate of Completion will be added to their Notre Dame transcript.
