

**LEGACY JR HIGH  
COMMUNITY COUNCIL MEETING  
April 11, 2018**

In Attendance: Sharon Armstrong, Kelsey Bernards, Katie Frederiksen, Nancy Hammond, Becky Larsen, Chadli Bodliy, Kaylene Sparker, Candice Prescott, Tara Reynolds, Cathi Olsen, Steve Geisler, Michael Archibald, Lisa Day, Vanessa Quan, Melanie Smith, Ryan Mellor, Marla Call.  
Excused Absent: John Sorenson, Jen Yeager

**SNAP PLAN- Steve Geisler**: Safe Neighborhood Access Plan, to provide safe ways for kids to walk to school who aren't bused. If there are sidewalks, areas etc. that aren't safe for the kids, it's reported to the city and then they pass the info. on to the state.

**FINE ARTS- Sharon Armstrong**- fine arts went to a conference in February. They collaborated with schools that feed into our school and then the schools we feed into. It's good to interact with other teachers and get feedback and ideas. Leroy learned how to do positive and negative space differently. He has never seen it done in this way before. Sharon learned about oil paints that are safe for Jr. High students; now they have water soluble. She was able to buy some and have the students use it and they really like it. Strapo is a new technique in which you paint on glass and then transfer it onto paper. Students were super excited about it! overall great and thank you for sending them to this conference.

**SCHOOL IMPORVEMENT PLAN- Chadli Bodliy**- went through our school improvement plan; she passed out a quick reference sheet for our goals from this year and our goals for 2018-2019. Only adjustment made is that the students will be compared to the same students the same time, meaning 7<sup>th</sup> grade students scores for fall will be compared to their 8<sup>th</sup> grade fall scores. Motioned to approve SIP plan Jon Sorenson was the only member not here to vote with our council, but the motion was passed unanimously. Signature Form signed by all present.

**DIGITAL CITIZENSHIP-Laurie Coleman** our school is right in line. A parent from the community who has had to deal with issues that have happened in her family, is willing to share her experience and we will collaborate with the schools in the community to do it together. Educating the kids is important and their actions have an effect on kids good and bad.

Usetech4good.com website-positive pilot program, it teaches kids how to use technology for good. We discussed possibly using it through the Hope Squad, maybe also have the student body officers help with this.

Counseling, Candice- Asked if there is anything the counselors can do for the students, or help parents more. Monthly frequently asked questions that could be in the newsletter, with resources and use our counselors for resources. Maybe talk about AP, Concurrent Enrollment, and Honors etc. More info about summer school is online, which Chadli sent out in her weekly newsletter before spring break.

**Voting for 2018-2019 School Year- Melanie Smith** 5 Spots that will open up for next year, if you are interested email Chadli.

**NO MEETING IN MAY! WATCH FOR COMMUNITY COUNCIL VOTING IN JULY**

**Next meeting will be Sept. 12, 2018 at 4:00 in the 1200 Collaboration area**
