Course Description – Advanced Placement/Dual Credit Language and Composition

WELCOME! The AP Language and Composition course focuses primarily on non-fiction and any study of fiction focuses on the authors' choice of language and rhetoric and their intended purpose. The course and its work is designed to “enable students to read complex texts with understanding and to write with sufficient richness and complexity to communicate effectively with mature readers” (collegeboard.com).

You will engage in a variety of writing modes, analytical readings, argumentative research assignments, and complex grammar competencies. The AP exam places a strong emphasis on your ability to analyze the rhetorical features of various texts and to effectively utilize rhetoric when composing written responses. The course's direct focus is to practice this analysis of how writers write (what methods, strategies, and stylistic elements the writer employs to develop his/her argument) and to hone your own writing skills. You will also engage in visual analysis in order to prepare for the synthesis essay that requires students to interact with a combination of text, images, and data.

The primary focus of English AP/DC is rhetoric. Rhetoric does not deal in absolutes, but rather in the analysis of divisive, and sometimes controversial issues, which continue to incite debate in our modern world. It is expected that students will engage in written and verbal debate utilizing civil discourse.

Components of the AP College Board examination

- **Synthesis:** Students read several texts about a topic and create an argument that synthesizes at least three of the sources to support their thesis.

- **Argument:** Students create an evidence-based argument that responds to a given topic.

Materials and Supplies

You should **ALWAYS** come to class with the appropriate supplies. You will need your **pen, paper, highlighters** and a **three- inch binder with planner EVERYDAY**.
