How do families pay for college?

- There are four sources of funds to pay college costs:
 - Money that's been saved
 - Current income
 - Money that's borrowed
 - Money that's awarded
- Except for #4, all involve some degree of sacrifice

What determines how funds are awarded?

- Two basic philosophies:
 - Need-based
 - Family has the primary responsibility to pay for college to the extent of its ability
 - Difference between family's ability and school's cost is level of student's need-based eligibility
 - Merit
 - Family financial ability NOT the primary determining factor
 - Student determined to have meritorious characteristics

How do students apply for need-based financial aid?

FAFSA

- Free Application for Federal Student Aid
- www.FAFSA.gov
- myStudentAid app (iOS and Android)

CSS Profile

- student.collegeboard.org/profile

Some schools also may require:

- Tax returns or tax transcripts and W-2 forms
- Profile from noncustodial parent
- Institutional aid application

What information goes on these forms?

- Both forms collect the same types of information; the Profile collects more of it
 - Student identifying data (name, address, etc.)
 - Student income information
 - Student asset information
 - Student dependency questions
 - Family data (size, number in college, etc.)
 - Parent income information
 - Parent asset information
 - Names of schools to receive the data
 - Signature/ statement of accuracy

What data do we use to apply?

- Both the FAFSA and Profile use “prior-prior year” (PPY) *income* data
- On the 2019-20 FAFSA and Profile, income will be reported from 2017 (the PPY), rather than 2018 (the prior year)
- Allows the 2019-20 FAFSA to be available in October of 2018 (Profile has previously been available in October)
- Will allow almost universal use of IRS Data Retrieval Tool by all FAFSA filers
- *Asset* data is reported as of the day forms are completed

What is “IRS Data Retrieval?”

- The ability to move federal income tax data from the IRS database to the FAFSA
- Change to PPY means ability to retrieve the data at time of initial FAFSA filing
- Can move parental, student or both sets of tax data
- For 2019-20, 2017 federal tax return(s) must be on file for IRS to retrieve data
- Some tax filing situations cause Data Retrieval to not be usable (e.g., filing separate returns, etc.)

What should I know about the Data Retrieval process?

- Only available on the FAFSA (not the Profile)
- Retrieval is via a link from the FAFSA to the IRS
- Retrieved IRS data will be encrypted (started in 2018-19)
- Encrypted data will NOT be visible on the retrieval website
- Encrypted data will NOT be visible on the FAFSA website
- Only “Transferred from the IRS” will appear on the FAFSA website and the Student Aid Report

How do families sign a FAFSA?

- Students and parents electronically sign the FAFSA with a Federal Student Aid ID (FSA ID)
- Student aid applicant must have one; parent with data on the FAFSA must also have one
 - *Each must be attached to unique e-mail address and/or cell phone number*
- Process involves creation of username, password, challenge questions
- FSA ID can be created:
 - When completing the FAFSA: at fafsa.gov
 - Beforehand (recommended): at StudentAid.gov/fsaid
 - myStudentAid app

Can an aid applicant apply as self-supporting?

- Students can apply as self-supporting only IF:
 - They're 24 years of age
 - They're married
 - They're pursuing a graduate degree
 - They're in the Armed Forces or are a veteran
 - They have a child **and** provide more than 50% support
 - They're orphaned or are/have been a foster child
 - They've been emancipated by a state court
 - They have a court-appointed legal guardian
 - They're homeless or at risk of being homeless

How is need-based aid eligibility determined?

Cost of education

- Expected Financial Assistance
(outside resources)

- Calculated family contribution

= Student's financial need

What is included in the cost of education?

- Tuition and fees*
- Room and board*
- Books and supplies
- Transportation
- Miscellaneous personal expenses

What are outside resources?

- Funds from sources **other than** the college/university
 - Clubs and civic organizations
 - Churches
 - Employers
 - Foundations
- Certain types of benefits (e.g., military)
- Private gifts

What is the “family contribution?” (aka the EFC)

- A figure derived from the financial data provided on the FAFSA and/or PROFILE
- Represents the calculated capacity of the family to contribute toward the cost of education
- Takes into account factors such as income, assets, family size and number of children attending college
- **Annually determined**, so can change from year to year as factors change
 - Income, assets, number in college, etc.
- Ranges from zero (no contribution) to \$1,000,000 and above (000000 to 999999)

What about merit-based scholarships?

- Funds awarded on the basis of factors **other than** or **in addition to** financial need
 - Academic factors
 - Talent factors
 - Service factors
 - (Fill in the blank) factors
- **Procedures for being considered vary**
 - Nomination process
 - Scholarship application
 - Admission application

What are the typical components of a financial aid award/package?

- **Gift Aid**
 - Grants (Institutional, Federal, and State)
 - Merit-Based Scholarships
 - Funds not requiring work or repayment
- **Self Help**
 - Student Employment
 - Student Loans (at some schools)
