October 30, 2018

Dear Shepaug Families:

The Shepaug Valley High School community of learners and I invite you to participate in our 8th grade parents *Introduction to Shepaug Valley High School*. The purpose of this informational evening is to share with you what we value as a learning community, and how we plan to ensure that every learner is given the opportunity to meet his or her goals.

In addition to an overview of core curriculum, graduation requirements, elective offerings, and opportunities we offer outside of the classroom, Agriscience Teacher Lori Trovato will be on hand to share information about the agriscience program that will open for the 2019-2020 school year. For this reason, we are including current ninth grade parents in this message.

Our presentation will be held in the Shepaug auditorium at 7:00 on Thursday, November 15, 2018. We welcome our Shepaug families and those families who are considering Shepaug as an option for your student's high school experience. Please see our agenda, which can be found on the next page of this message and on our Shepaug [website](#).

We look forward to introducing you and your family to *The Shepaug Experience!*

Sincerely,

A handwritten signature in black ink, appearing to read 'Kim Gallo', with a long horizontal flourish extending to the right.

Kimberly Gallo, Principal

Shepaug Valley School
