

The staff at Ionia Middle School is dedicated to ensuring that your child builds a strong educational foundation that will propel them to future successes. Our students must understand the importance of being prepared in all aspects of their lives and in the classroom. This week we are starting a program to help our students understand the importance of completing classroom assignments. The new program is called Zap and the way it works is..

- 1) If students have any missing assignments for the week, teachers will Zap them, by giving them a Zap sheet.
- 2) If students do not complete the assignment they are assigned to the Zap room during lunch on Tuesday, Wednesday and/or Thursday. Students will eat lunch in the classroom while working on their missing assignment(s). Students will have the opportunity to get assistance from a certified teacher and/or peers while in the ZAP room.
- 3) Students that chose to not attend ZAP when assigned will be assigned to an after school detention where they will be expected to complete the missing assignments. Transportation will not be provided.

By teaming together, we will ensure that our students understand the importance of being prepared.

Together we will ensure your child's success.
