

SHEPAUG VALLEY SCHOOL

To all Student Drivers,

During the next few weeks you will see construction crews beginning work on campus. The initial phases of the construction will involve land leveling, tree clearing, trenching and fencing being erected on the north side of the building and in the student parking area. During this time I ask that you exercise caution and be cognizant of any foreign objects in the roadway.

As far as student parking goes, the parking lot will be divided in half by fencing. During the first month of construction students will be directed to park on the west side of the lot (side closest to tennis courts.) After that first month, students will be directed to park on the east side of the lot. There will be enough parking spaces for everybody, however, we are now packed into a tighter space so please keep speeds low, use one parking space and use caution while backing.

As with any construction project, there are bound to be some issues initially but I am confident that we can get through this with only minimal inconvenience to everyone. Thank you in advance for your cooperation.

Sincerely,

Officer Rich Innaimo (SRO)
