Student participation in student extracurricular and co-curricular activities is encouraged to aid in the development of well-rounded personalities, with special emphasis on social, emotional, and physical fitness.

2. POLICY

"Scholastic" includes both academic and behavioral performance. Schools have the authority to establish higher scholastic standards for extracurricular activities as well as requirement for co-curricular activities.

The District does not discriminate on the basis of race, color, religion, national origin, sex, or disability in its programs and activities. Individuals shall not be denied an opportunity to try-out for athletic teams or other nonacademic, co-curricular, and extracurricular services and activities based on their federally protected class.

3. ACADEMIC ELIGIBILITY MINIMUM STANDARDS

Students must obtain a minimum term grade point average (GPA) of 2.0 in the preceding grading period and meet the Utah High School Activities Association (UHSAA) standards to participate in cheerleading and activities sponsored by the UHSAA. Student body officers, class officers, etc. must hold and maintain a minimum term GPA of 2.5.

- 3.3. Determination of academic eligibility shall be determined when grades are posted. Grades are posted when all grades have been entered electronically and are available to students, parents, and teachers. In no case may the posting date be more than five (5) school days following the last day of the grading period. Grade changes after the posting date cannot restore lost eligibility.

4. CITIZENSHIP ELIGIBILITY MINIMUM STANDARDS

Students participating in extracurricular activities shall exemplify good citizenship.

- 4.1. Students receiving one "U" in the preceding grading period will be subject to review by the School Standards Committee. A student may be put on probation and allowed to participate if the committee feels that there have been mitigating circumstances, or that an honest effort is being made to improve.
- 4.2. Students receiving two or more "U's" in a grading period will be eliminated from extracurricular activities immediately and for the succeeding term.

- 4.3. At the discretion of the school principal and School Standards Committee, a student with one or more “U’s” may participate when their credit has been restored.
- 4.4. Determination of citizenship eligibility shall be determined when citizenship grades are posted. Grades are posted when all grades have been entered electronically and are available to students, parents, and teachers. In no case may the posting date be more than five (5) school days following the last day of the grading period. Citizenship grade changes after the posting date cannot restore lost eligibility.

5. ESTABLISHING ELIGIBILITY IN UHSAA SPONSORED INTERSCHOLASTIC ACTIVITIES

- 5.1. A student enrolling in high school for the first time will be deemed residentially eligible for UHSAA sponsored interscholastic athletic activities even if that first entry is at a school not within the student’s residential area, unless the student established residential eligibility under District Policy 5S-201 *9th Grade Student Participation in High School Sports*. ~~A ninth grade student will only be allowed to participate with the high school to which they would normally be assigned, based on residence, upon completion of the ninth grade.~~
- 5.2. A student attending a District alternative school is eligible to participate in UHSAA sponsored interscholastic activities at the school within whose boundaries the student’s custodial parent or legal guardian resides or at the public school from which the student withdrew for the purpose of attending the alternative high school, as long as they meet required scholastic eligibility standards.

6. TRANSFER ELIGIBILITY IN UHSAA SPONSORED INTERSCHOLASTIC -ACTIVITIES

- 6.1. A student who attends one high school and subsequently transfers to another high school, may request eligibility to participate in interscholastic activities at the new school through UHSAA, as allowed under its by-laws.
- 6.2. A student’s transfer between schools shall not extend eligibility for interscholastic competition beyond the four consecutive years allowed under UHSAA by-laws.
- 6.3. The use of undue influence by any person, connected or not connected with a District school, to secure the transfer of a student to a District school for the purpose of participation in interscholastic activities shall cause the student to be ineligible for such activities for a period of twelve (12) months. If the person is a District employee such action may result in disciplinary action consistent with state law and District policy.
- 6.4. A student may not attend one District school for academic classes and participate in interscholastic athletic activities at a different District school, except as allowed for ninth grade students to participate with a high school as outlined in District Policy 5S-201 *9th Grade Student Participation in High School Sports*, or students attending a District alternative school (as outlined in section 5.2).
