Empowering students to be independent critical thinkers and responsible global citizens

## A Message from Admissions

**Assessments for the 2019/20 academic year have begun.** Thank you to those who have submitted applications. Your trust in our school for your children is recognized and much appreciated. We welcome having siblings at ASHK and look forward to the strength it brings our community.

**New cut-off age for Kindergarten in 2019.** We have been in discussion with Esol about extending the cut-off age for entry into KG2. We're pleased with the decision that has been reached to accept students whose 5th birthday is before December 31st of the year of entry. This new date is consistent with many other schools in Hong Kong.

If you would like your younger child to join us next year please submit an application now or reach out to the Admissions Office.
