Getting Started Using Snap&Read Universal
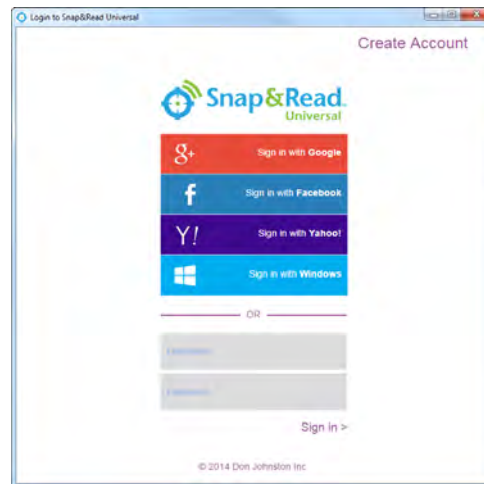

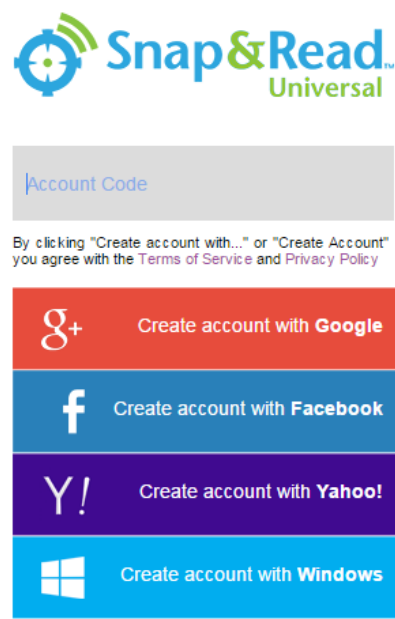

Once you have received an activation code from your Administrator or Educator you will need to create your own login account to start using Snap&Read Universal.
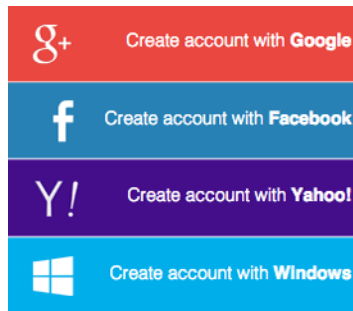

1. Launch Snap&Read Universal from your Chrome Browser or Desktop device, this will load the Sign In / Create Account window.

2. Click on **Create Account**.

3. Enter the activation code that you received from your Administrator or Educator.
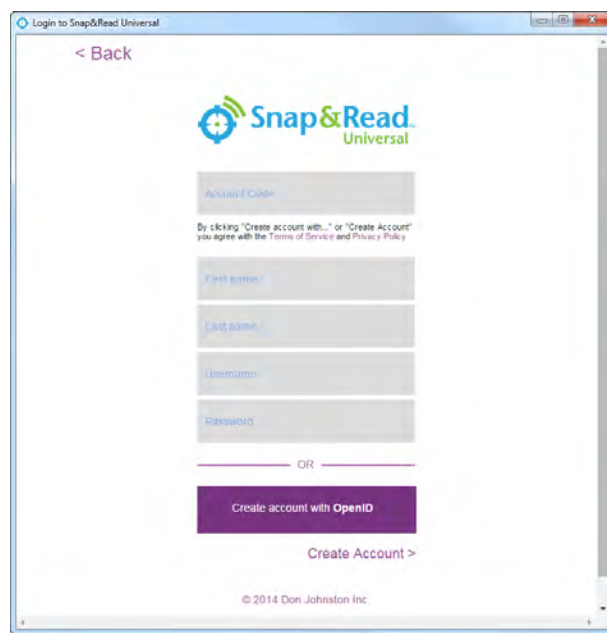

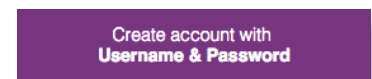

4. You can use a favorite login that you already have setup in Google, Facebook, Yahoo!, Windows or create a new account in our system.
   Click on one of the boxes to create account using existing login.

OR

Click on the Create Account with Username & Password option.

5. Click on Create Account >.
